Smart Pet Feeder
instruction manual

Please read this manual carefully before use
and keep it for future reference.

Use safety Tips

① Children under 8 years old cannot operate this feeder. Children should not handle the feeder without adult supervision (Clean and maintain)

②The feeder is different from the toy. Minors must use the feeder under the supervision of their parents. Be sure to prevent children from using feeders as toys or sitting on them.

③ This food can only be operated according to the instructions in this note. Do not perform maintenance operations outside this note.

④ If the feeder cannot work properly due to drop, impact, damage outdoor or water, stop using it immediately.The feeder can only be placed in a dry position! Do not place the feeder outdoors, or on wet ground. Do not let the feeder touch or dip in water.

⑤ Do not use this feeder outside or in the bathroom. The feeder should be positioned at least one meter away from the pool.

⑦ Do not place the feeder on wet ground or expose it to rain or snow.Do not touch the feeder power device with wet hands.

⑧ Do not use power cables or plugs with damaged links. If the power cable is damaged, contact your supplier or the manufacturer's after-sales maintenance department immediately to replace the power cable with a new one to avoid damage.

⑨ Hold the charging device by hand and do not drag the power cord when unplugging the charging device. Do not use an extension cable for power supply.

⑩ Fall warning! Do not place food on small tables or other places.

⑪ Please move the feeder carefully to prevent dropping, bumping, rubbing or other damage. If the feeder is found broken, cracked, deformed, or corroded, stop using it immediately.

⑫ The seed feeder must provide a safe low voltage rating that meets its requirements.

⑬ Keep the feeder on a counter which is far away from heat source, fire or other high temperature.

⑭ Persons by persons may not disassemble, modify or repair this feeder, otherwise, all warranty and service rights will be forfeit.

正面

Two kinds of power supply

Plug-in service

①Insert the power cable into the power socket.

②Connect the adapter plug to the socket.

Battery powered

①Open the battery cover and put 4 alkaline batteries No.5 into the battery bin (pay attention to the positive and negative terminals).

③Can hold up to 4 liters, do not use large particles freeze-dried, to avoid clogging.

* Batteries must be purchased by oneself.

* When plugged in, it can also be loaded into the battery for backup. After power failure, the battery mode will be automatically switched. The device still supplies food as planned, but it does not support APP remote control.

-6-

Open the lid and add grain

①Push the lid slip and lift up to open.

Put in the desiccant

②Remove the desiccant from the plastic packaging and place it in the desiccant box.

Add pet food

③Can hold up to 4 liters, do not use large particles freeze-dried, to avoid clogging.

(The maximum support is 12*12*12mm freeze-drying, do not use more than the size.)

-7-

Remote control of food production

This product can be controlled by the "Tuya Smart" APP

①Search for "Tuya Smart" in the mobile app store to down load and install.

②Keep Wi-Fi and Bluetooth enabled on your phone -- the blue light flashes and drops 3 seconds after you press the reset button -- open the APP and click on the upper right corner to add devices -- wait for automatic search and discovery of devices to add -- enter the Wi-Fi password and wait for successful connection.

③Due to APP upgrade or update, the actual operation may be slightly different from the above description. Please refer to the current APP guide for operation, or consult the official customer service.

Pay attention! The device supports only 2.4G Wi-Fi band. Ensure that the router uses the 2.4g Wi-Fi band when connecting to the device.

* Reset network

If you need to replace the network, long press the function button for 3-5s. If the status indicator blinks blue, reconnect the connection using the APP.

-8-

Manual control of food production

Double click the button, make a treat! If more than one copy is needed, the operation can be repeated.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any inte rference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interferenceto radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
