Features

- 15W magnetic wireless quick charging
- 5000mAh+wireless+magnetic suction 3 in 1
- QC+PD 20W quick charging
- Sync input and output for protable charging
- Accurate LED power indicators
- High quality safe polymer battery

Packing details

- Powerbank,manual\*1

Specifications

|                      |                                     |
|----------------------|-------------------------------------|
| Name:                | Magnetic Wireless Powerbank         |
| Model:               | WiMag                               |
| Capacity:            | 5000mAh/3.8V (19Wh)                 |
| Lightning Input:     | 5V≐2A                               |
| Wireless Output:     | 15W/10W/7.5W/5W                     |
| Type-C Input:        | 5V≐3A, 9V≐2A (PD 18W)               |
| Type-C Output:       | 5V≐3A, 9V≐2.22A, 12V≐1.67A (PD 20W) |
| Working temperature: | -10°C~40°C                          |

Power Indicators

Power incators to monitor the power status

1.Checking remaining power:

Click the button, if one white light is on, it means the power is within 25%, if two white lights are on.it means the power is within 50%, if three white lights are on.it means the power is within 75%, and if four white lights are on, it means the power is within 100%. When the last light of the light flashes, the battery level is less than 5%, please charge it as soon as possible

2.Checking charging function:

After clicking the button, during use, the fifth light turns on red, indicating that themobile power supply has started the fast charging function. For example, the fifth light is always on blue light , indicating that the mobile power wireless charging is working normally
