MiMOUSE

MiMouse EMK17 AI

INSTRUCTION MANUAL

Important Notes

- Please read the instructions carefully before using this product.
- To ensure your safety, please read the precautions carefully before using this product.

Device Overview

Connect AI Keyboard to Computer

Switching Between Multiple Devices

Connection Type	Mode Switcher Setting
Wired Mode	The mode switcher is in the middle position.
Receiver Mode	The mode switcher is set to the right for 2.4G.

Re-pairing steps for the USB receiver when not connecting properly

- Switch the mode switcher to the middle position for wired mode, then hold the "voice type" button for 3 seconds and switch the mode switcher to the right for receiver mode at the same time.
- When the pairing indicator flashes blue, plug the receiver into the computer's USB port.
- Once the blue light stops flashing, the connection is successful.

Install Driver

<https://global.mimouse.com>

Download the driver software from the official website or long press the "Voice Typing" key for 3 seconds to download and install the driver

Note: If you use MacOS or Norton antivirus software, you may see a warning during installation. Please approve the installation to proceed.

*Mac computers need to set permissions

Note: Please set up the Mac13 system in System Settings > Privacy & Security.

Indicator Light Descriptions

Indicator	Description
Charging Indicator	The red light stays on while charging and turns off when fully charged.
Low Battery Indicator	If the battery level is below 20%, the blue light flashes slowly and turns off after 30 seconds.
Mode Indicator	The mode indicator shows a green light in Receiver Mode, and a red light in Wired Mode.
Pairing Indicator	The blue light flashes while waiting for pairing and will turn off once pairing times out or is successfully completed.

Note: Check the battery status and percentage for the keyboard in the H44 software. Use the provided 5V-1A/USB-C charger for charging.

Package Contents

- AI Keyboard x 1
- USB Receiver x 1
- Data cable x 1
- Instructional Manual x 1

Product Specifications

Feature	Specification
Name	AI Keyboard
Model	MiMouse EMK17 AI
Size	133mm x 90mm x 40mm
Weight	198±2g
Keyboard Type	Mechanical Keyboard
Number of Keys	19 Keys
Connection Type	2.4G Receiver/Wired
Charging Port	Type-C
Microphone	MEMS Microphones
System Compatibility	Windows 10/11, MacOS 10.15 and above

Safety Guidelines

- Warning**
- Improper use of the battery may cause leaks, explosions, and other incidents, posing a risk of personal injury or fire.
 - Keep away from humidity, high temperatures, and contact with conductive materials or liquids.
 - Do not disassemble, repair, or modify this product yourself.

Charging Instructions

- It is recommended to connect the keyboard charging cable to the computer for charging.
- Use the provided data cable or one label "Output 5V-1A" for charging.
- Keep this product away from heat sources like heating appliance or direct sunlight during charging.

Problem Troubleshooting

Problem	Possible Causes	Solution
USB receiver unresponsive	Poor USB receiver connection	Plug the USB receiver into another USB port on the computer
Keyboard not functioning	Low battery	Use it after fully charged
	The keyboard failed to connect to the computer	Reconnect the computer using either the USB receiver or Bluetooth pairing
	Software download incomplete or error	Retry after downloading the correct software
	H44 software is not open	Ensure the H44 software is open
Multifunction voice recognition	Internet connection failure or poor network quality	Check the internet connection to ensure it is functioning properly
	Voice recognition is in the wrong language setup	Open the H44 software and go to the settings, select "Voice Typing" and adjust the "Input" language to your preferred language
	Noisy surroundings	Use it in a quiet environment
Inaccurate voice recognition	Speaking too softly or loudly	Speak at a normal volume
	Speaking too quickly or unclear pronunciation	Speak at a normal rate with clear pronunciation
	Speaking too far from the keyboard	Speak to the keyboard within a 65cm distance
Voice recognition is inaccessible in certain software	Restricted by user authorization	Close the H44 software and restart it with administrator authorization
Incorrect voice translation	Voice recognition is in wrong language	Open the H44 software and go to the settings, select "Translation" and adjust the "Input" and "Output" language to your preferred language
MacOS System Warning During H44 Installation	H44 software not on the App Store	Go to System Preferences > Security & Privacy > General, then click "Allow Anyway" next to the H44 app warning to proceed with the installation
AI function not working on MacOS system	Software needs to obtain MacOS system permissions	Enable microphone access by navigating to System Preferences > Security and Privacy > Accessibility & Input Monitor & Screen Recording

Warranty Policy

Eligible for Warranty:

- Product must be sold by MiMouse with a purchase history.
- Confirmed performance issues in "Product Performance Failure Table" by MiMouse customer service.

Timeframe	Action
Within the first 7 days of receiving the product	Eligible for free return or replacement unit
From day 8 to 30 after receiving the product	Eligible for free replacement unit
Within the initial 12 months of receiving the product	Eligible for free repair services

Not Eligible for Warranty:

- Software, encompassing (but not limited to) (i) the operating system and software integrated into MiMouse-branded hardware products through our factory-integration system, (ii) third-party software, or (iii) the reloading of software, software configurations, or any data files.
- Claims arising from unacceptable use or care of the Product, including misuse, abuse, negligence, unauthorized modification or repair, unauthorized commercial use, or any operation of the Product beyond MiMouse's recommended parameters.
- Claims arising from external causes, such as accidents, acts of nature, liquid contact, fire, or earthquake.
- Cosmetic damage, minor cosmetic abnormalities, and normal wear and tear, including scratches, dents, and chips.
- Products with a serial number or date stamp that have been altered, obliterated, or removed.
- Products not sold by MiMouse with no purchase history or from unauthorized third-party sellers.

Friendly Reminder:

For secure product shipping during exchanges, it is recommended to keep the box for a minimum of 30 days from the date of purchase.

Certification

FCC Caution:

This device complies with part 15 of the FCC rules. Operation is subject to two conditions: (1) it may not cause harmful interference, and (2) it must accept any interference received, including interference that may cause degraded operation.

Unauthorized changes or modifications could void the user's authority to operate the equipment.

Note: This equipment complies with Class B digital device limits under part 15 of the FCC Rules, designed to provide reasonable protection against harmful interference in residential installations. It generates, uses, and can radiate radio frequency energy. If not installed and used according to the instructions, it may cause harmful interference to radio communications. There is no guarantee interference will not occur in a particular installation. If it does, try the following:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and receiver.
- Plug the equipment into a separate power outlet that is not shared with the receiver.

Consult the dealer or an experienced radio/TV technician for help.

*RF Warning For Portable Device:

This device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.

Certificate of Quality

examination date:
The product has passed the inspection and is
allowed to leave the factory
