200mm

► Product Specifications

Cable Length: 1.8m
Battery Type: Rechargeable
Battery Capacity: 800mAh

► Safety Precautions

Safety Instructions:
Do not use the device in a wet or high-temperature environment to avoid potential damage.
Do not disassemble or modify the keyboard or power supply, as this may damage the device and pose safety risks.
If the keyboard malfunctions, please contact a professional technician for repairs.
If the keyboard is damaged, please stop using it immediately.

Usage and Maintenance:
Use only the manufacturer-recommended cleaning solution to clean the keyboard.
Avoid using the device for extended periods to prevent damage to the product.
When not in use, store the product in a dry, well-ventilated place.

Precautions:
Do not use the device for extended periods to prevent damage to the product.
When not in use, store the product in a dry, well-ventilated place.

► Quick Start

2.4G Wireless Connection

- Remove the 2.4GHz receiver from the storage box.
- Insert the 2.4GHz receiver into a USB port on your computer.
- Wait for the receiver to be recognized by the computer.

Bluetooth Connection

- Press the Fn key and the Bluetooth key to turn on the Bluetooth function.
- Wait for the receiver to be recognized by the computer.

Battery Level Check

- Press the Fn key and the Battery key to check the battery level.
- Wait for the receiver to be recognized by the computer.

Low Battery Warning

- When the battery is low, all custom key lights will turn off.
- Press the Fn key and the Battery key to check the battery level.

Charging Method

- Connect the USB-C cable to the keyboard and the power source.
- Wait for the receiver to be recognized by the computer.

Sleep Mode

- Press the Fn key and the Sleep key to enter sleep mode.
- Wait for the receiver to be recognized by the computer.

Wired Connection

- Insert the USB-C cable into the keyboard's port.
- Wait for the receiver to be recognized by the computer.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
