(RE)FRAME™

Smart Glasses

Quick Start Guide

Thank you for choosing our smart glasses. Get the most out of them — take a moment to read the manual and usage guidelines carefully.

Design Features

Charging

Connect the included USB-C cable to your glasses, then plug into any USB-C charger.

Note: Charging while powered off will turn the device on.
Orange light = charging. Green light = fully charged.
Auto-shutdown: the device turns off automatically if disconnected from the app for 3 minutes.

Mobile App

OPTION 1

Scan the QR code to download and install the (RE)FRAME app.

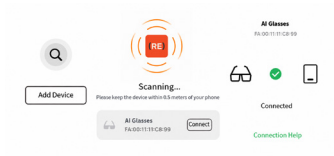

OPTION 2

Search "REFRAME" in your app store download and install the app.

App Connection

1. Open the app and tap "Add Device."
2. The app will automatically search for nearby smart glasses.
3. Once detected, tap "Connect."
4. A success screen will appear once the connection is complete.

Note: Indicator light: alternating orange/green flash = not connected to the app. Solid (stops flashing) = connected successfully.

Button Usage Quick Reference

POWER/CAPTURE Button

Small Orange Round Button

To Power On: Long press for 3 seconds

To Power Off: Long press for 3 seconds

To Capture Photo: Press Once and listen for the capture sound.

Tap Twice to Play or Pause Music

Swipe Forward (toward face)
Volume UP

Swipe Backward (toward ear)
Volume DOWN

Triple Tap to NEXT FORWARD

Long Press to PREVIOUS TRACK

Quick Reference

Photo Capture

Press the POWER/CAPTURE button once and listen for the capture sound. Photos save locally: import to the app via Wi-Fi.

Video Recording

Press the POWER/CAPTURE button twice and listen for the capture sound. Tap once again to end. Videos save locally: import to the app via Wi-Fi.

Audio Recording

Press the AI/ACTION button twice and listen for the sound. Tap once again to end. Recordings save locally: import to the app via Wi-Fi.

AI Features

AI Voice Assistant

Wake: long-press the AI/ACTION button for 1.5 s, or say "Hey REFRAME" (the app must be running in the foreground).

Exit: single-press the button.

AI Translation

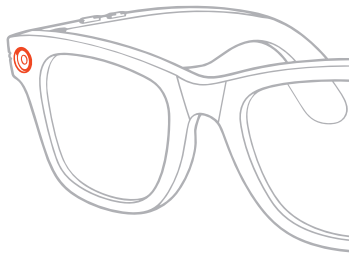

Enter voice or text in the app: it is converted to real-time voice output on the glasses for instant translation.

1. Do not disassemble or replace internal parts. Only use the device according to the operating instructions in this manual, improper handling may damage the product or create safety hazards.
2. Avoid strong electromagnetic environments. Electromagnetic interference may cause the product to malfunction or stop working.
3. Keep away from water and moisture. Water ingress can cause component short circuits and functional failure.

HD WIDE CAMERA

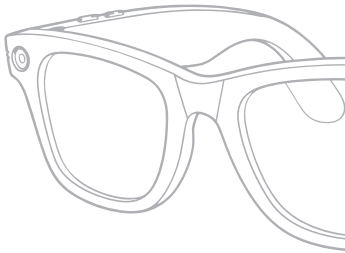

8 megapixels, right where your eyes are. One press and the moment's yours.

OPEN-EAR AUDIO

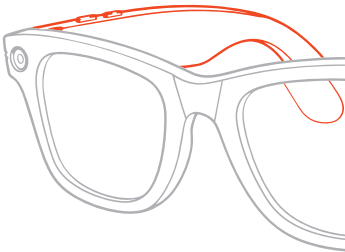

Open-ear sound that stays with you. Your music, your calls, your world, all at once.

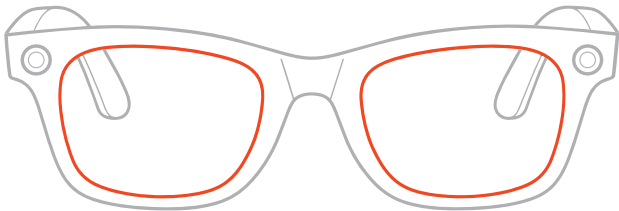

AI

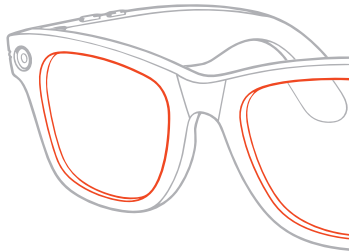

**Ask out loud and it answers.
Recognize what you're seeing,
translate what you're hearing, live.**

LENS

Made for your eyes: your prescription, polarized sun lenses that reduce glare, or blue-light lenses that ease screen strain.

LOOK UP. LIVE MORE.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
