

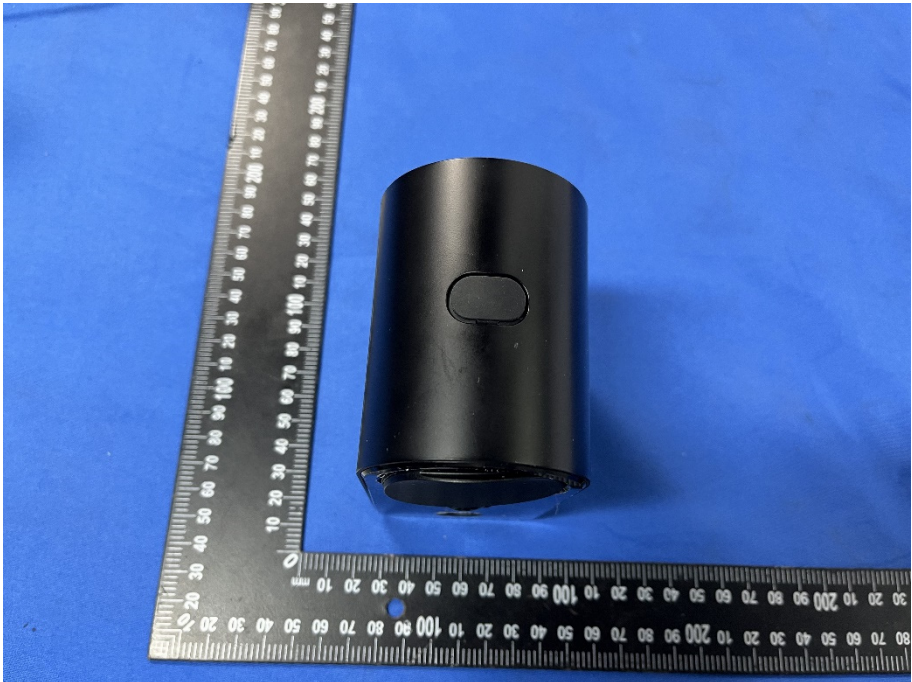

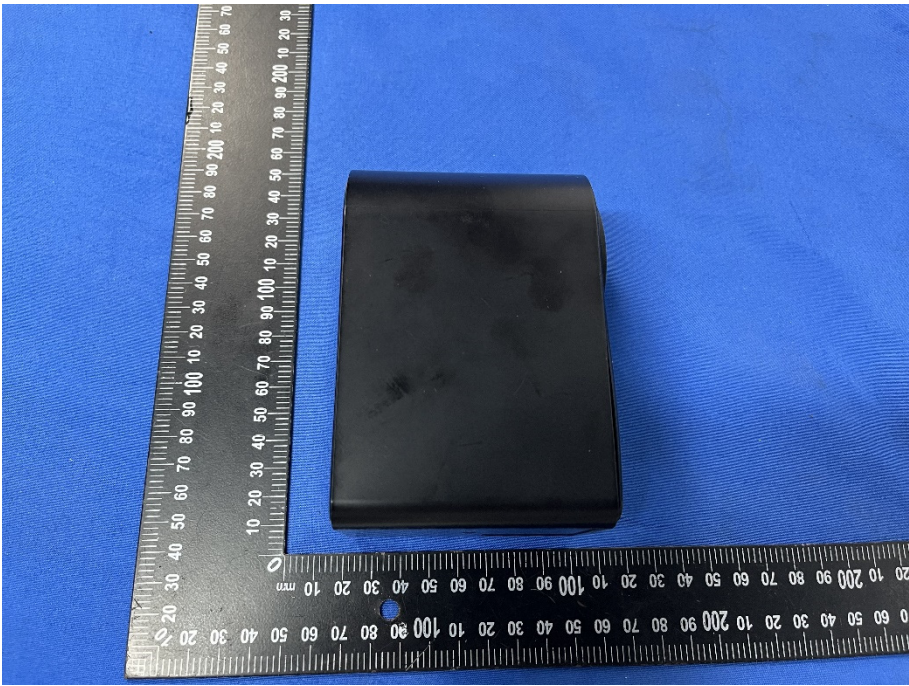

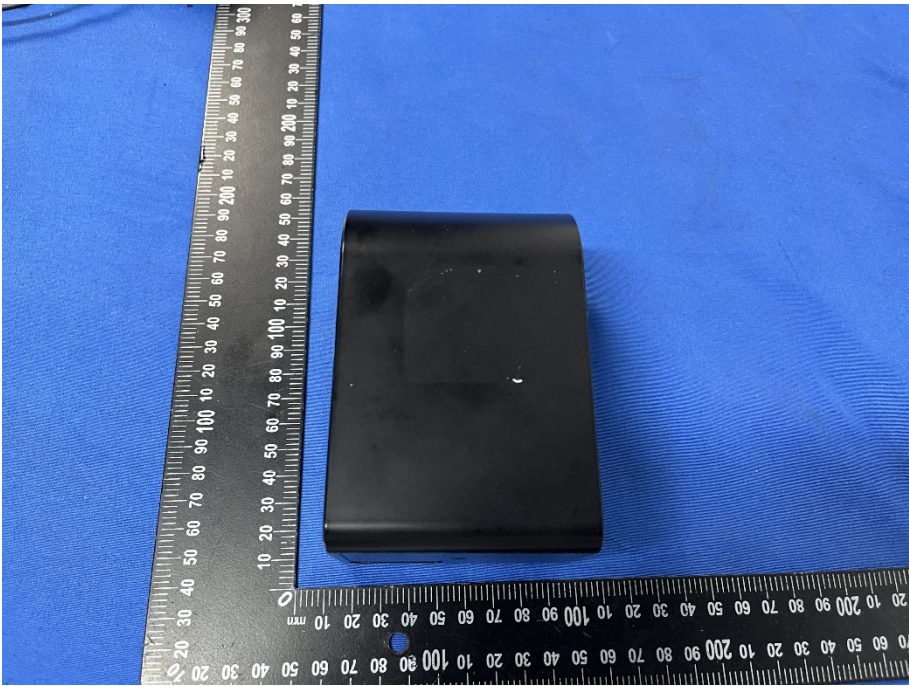

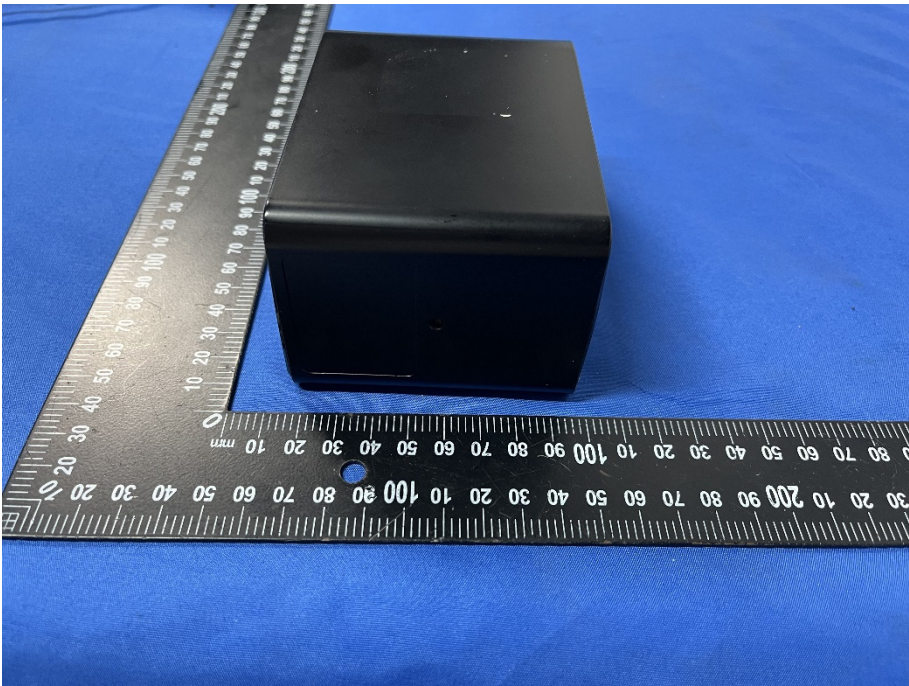

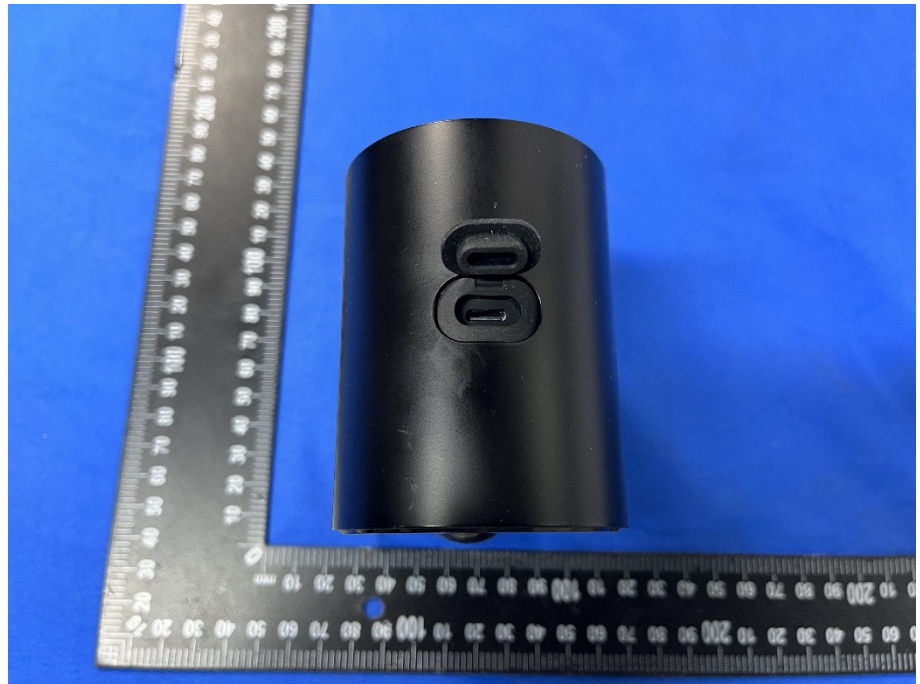

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A black cylindrical component is shown against a blue background. A ruler is placed vertically to the left of the component, showing measurements in millimeters. The component has a small, rectangular, recessed feature on its side.
EUT View 2	 A black rectangular component is shown against a blue background. A ruler is placed vertically to the left of the component, showing measurements in millimeters. The component has a large circular feature at the top, and two smaller circular features below it.

EUT View 3	
EUT View 4	

EUT View 5	 A black rectangular device is shown from a top-down perspective. It has a small, lighter-colored square feature on its top surface. The device is placed on a blue fabric background next to a black ruler with white markings. The ruler is oriented vertically, with the 0 mark at the top and the 200 mm mark at the bottom. The device is positioned to the right of the ruler, with its left edge aligned with the 100 mm mark.
EUT View 6	 A black rectangular device is shown from a side-on perspective. It has a small, lighter-colored square feature on its top surface. The device is placed on a blue fabric background next to a black ruler with white markings. The ruler is oriented horizontally, with the 0 mark on the left and the 200 mm mark on the right. The device is positioned above the ruler, with its bottom edge aligned with the 100 mm mark.
