Please be notified that we, the undersigned, (Shenzhen Kenxinda Technology Co., Ltd.) declare that the reasons for this Class II permissive change are as below:

1. The only difference between the new and old models is the appearance of the back cover. As both of the back cover used the same ABS plastic material, these change will not impact EMC performance.

So the Radiated Emissions test _below 1GHz is performed and the worst-case of SAR has been verified.
