Internal Photos

A photograph of a green printed circuit board (PCB) with various electronic components. The board is rectangular with rounded corners and is populated with numerous components including integrated circuits, capacitors, resistors, and connectors. A prominent black microcontroller is located on the left side. A USB connector is visible on the right side. The board is set against a blue grid background.

The image shows a green printed circuit board (PCB) for a OneSoftigm Fitrus+ device, Rev. 1.0. The board is populated with various electronic components including integrated circuits, capacitors, resistors, and connectors. It features a central multi-pin connector and two circular ports on the right side. The PCB is resting on a green grid surface.
