

Sound Bar Instruction Manual

Model: J2005-4

Qualified Design ID: 180349

1. Product Overview

2. Specifications

- Bluetooth Version: 5.3 + EDR Enhanced
- Wireless Range: Within an effective distance of 10 meters (33 feet)
- Output Power: 10 W + 10 W (RMS)
- Rated Impedance: 8 Ω
- Speaker Units:
 - Left: 2" x 2 (5 W / 8 Ω each)
 - Right: 2" x 2 (5 W / 8 Ω each)
- Frequency Response: 25 Hz - 20 kHz
- Sign-to-Noise Ratio: ≥ 90 dB
- Channel Separation: ≥ 85 dB
- Power Adapter Input: 100-240 V AC $\sim$ 50/60 Hz
- Power Output: 12 V DC $\equiv$ 2A
- Sound Bar Size (each) : 65 W * 50 D * 430 H mm (2 pcs)
- Bluetooth Name: fireplace speaker

3. Installation & Operating Instructions

1. Connect the DC plug from the power adapter to the DC input jack located on the back of the right speaker.
2. Plug the power adapter into a suitable wall outlet.
3. Enable Bluetooth on your mobile device, TV, or other compatible device.
4. Search for "fireplace speaker" and select it to pair.
5. Once connected, audio will play through the speaker.

4. Important Safety & Usage Notes

- This unit can only pair and connect to one Bluetooth device at a time. Disconnect the current device before pairing a new one.
- For indoor use only. Keep in a dry, well-ventilated environment.
- Use only the supplied 12 V DC power adapter. Using a higher voltage may damage the product.

FCC / ICES Compliance Statement

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Interference Statement

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm (8 inches) between the radiator and your body.

ICES Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
