Welcome to Wanmine Calendar!

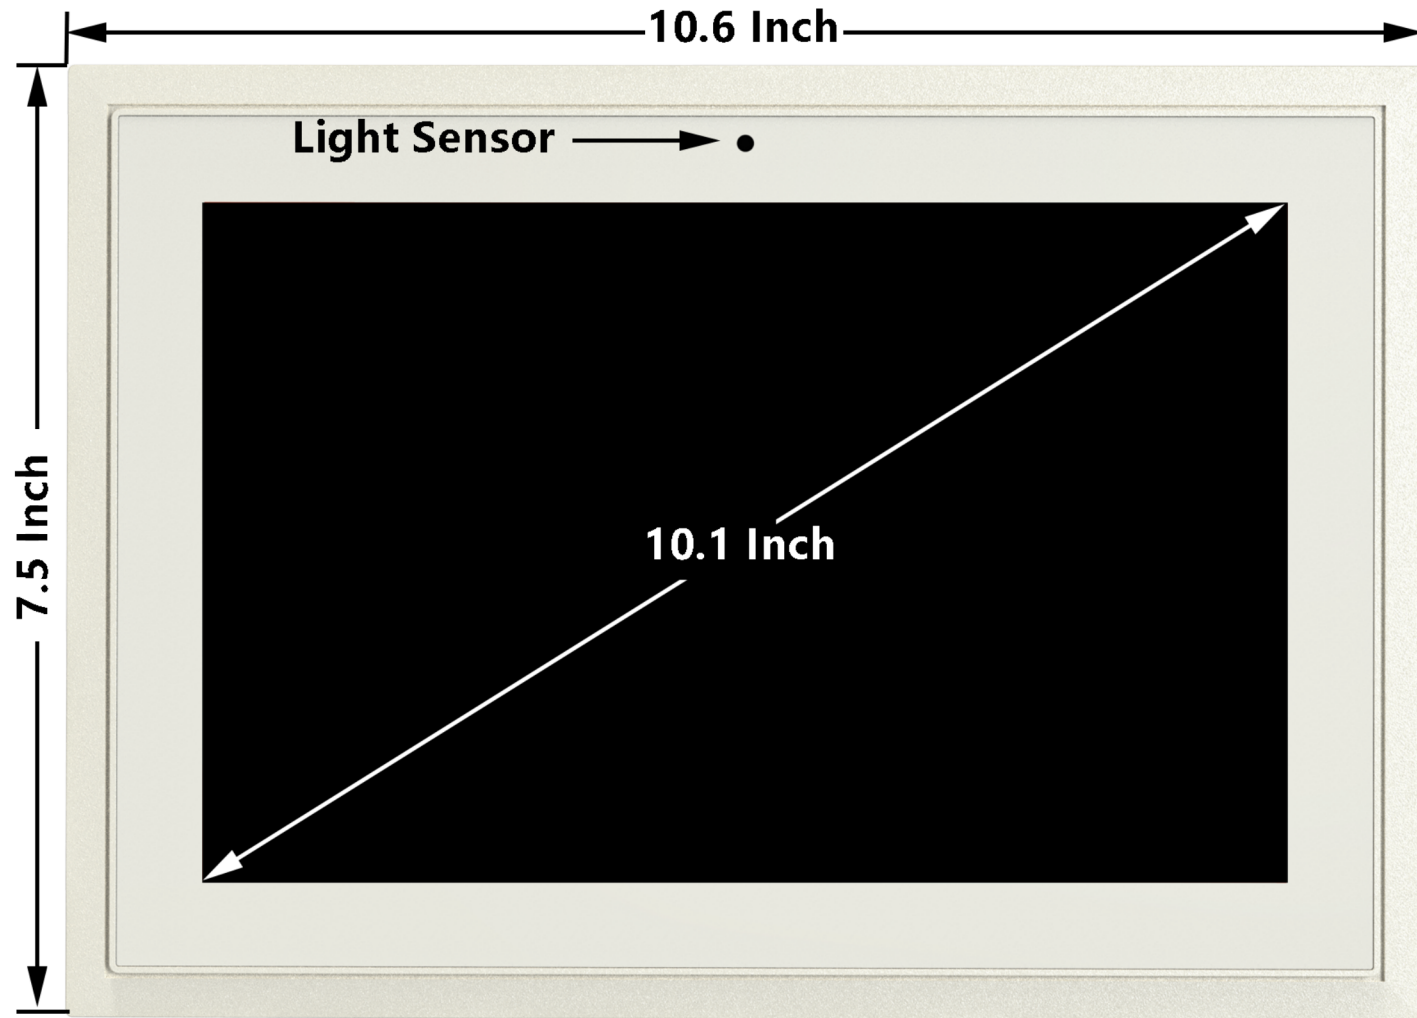

Hi there—and congratulations on getting your Wanmine Calendar!

We know how much you do every day to keep your family running smoothly, and we're here to help make life just a little bit easier. With Wanmine, keeping track of everyone's plans, appointments, and to-dos becomes something you don't have to carry all in your head anymore.

We're always listening to our users and adding new features that make family life more organized and less stressful. You'll get updates automatically—no extra work needed! Just check your email or app notifications when something new arrives.

We've tried to keep this guide as helpful as possible, but if things look a little different on your screen, don't worry—we're always happy to help. Real people are just a phone call or email away, ready to answer your questions and make sure everything works the way you need it to.

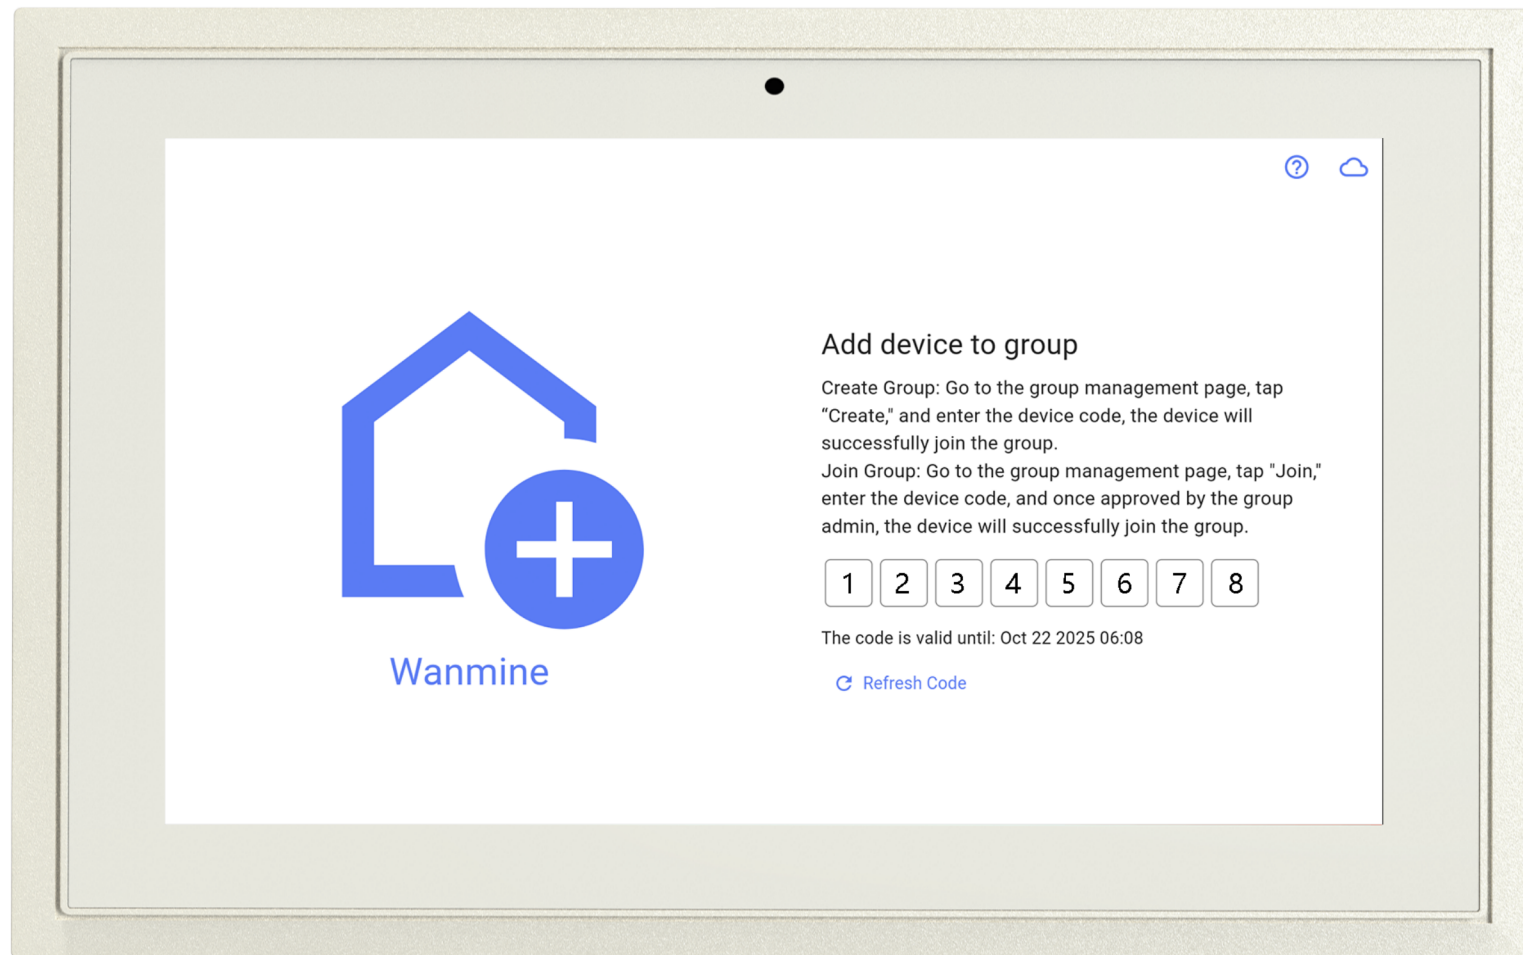

We're so excited to be part of your home. Let's make every day a little smoother, together

1) Initial Calendar Setup

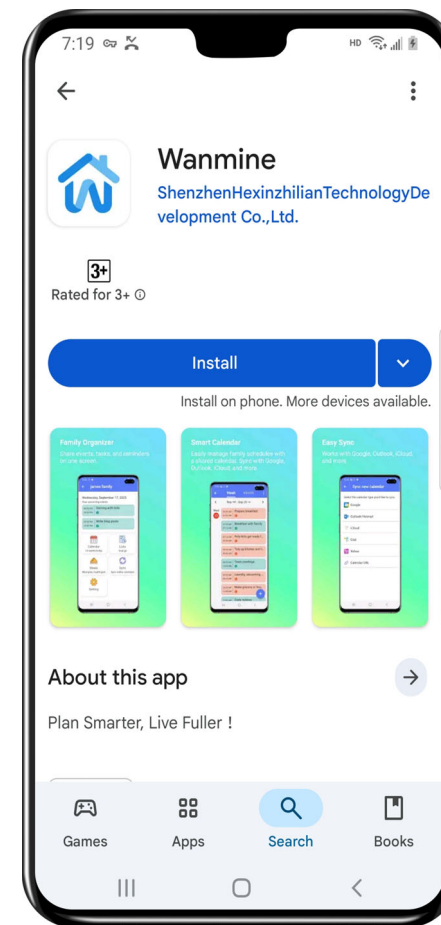

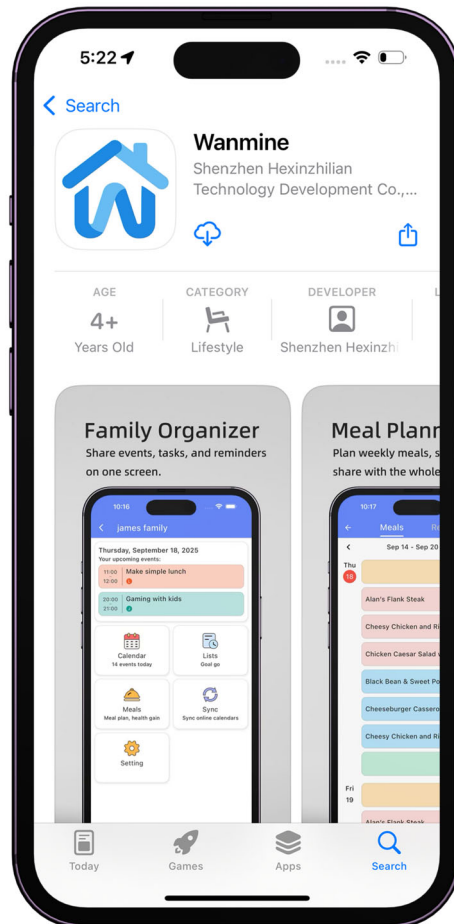

Turn on your calendar, connect to Wi-Fi, choose your local time zone, and enter a name for your device. After that, you'll receive a 8-digit device code.

Note: This device code is valid for 24 hours. After that, a new code will be generated automatically.

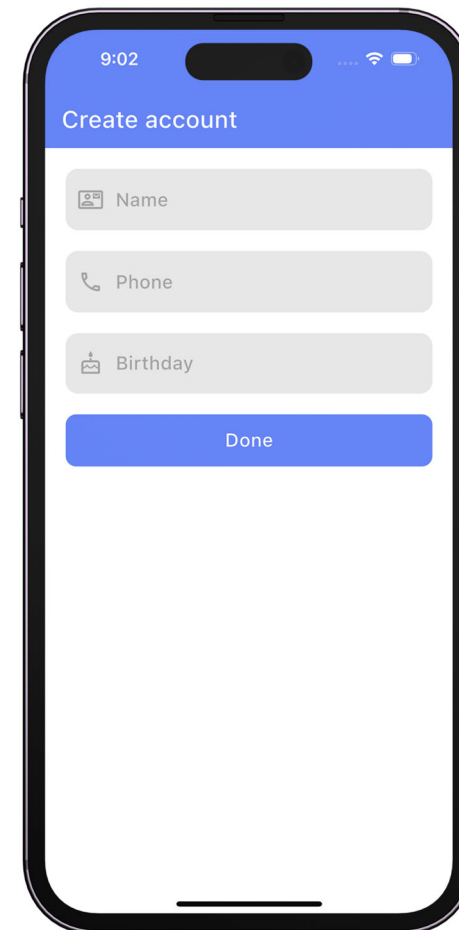

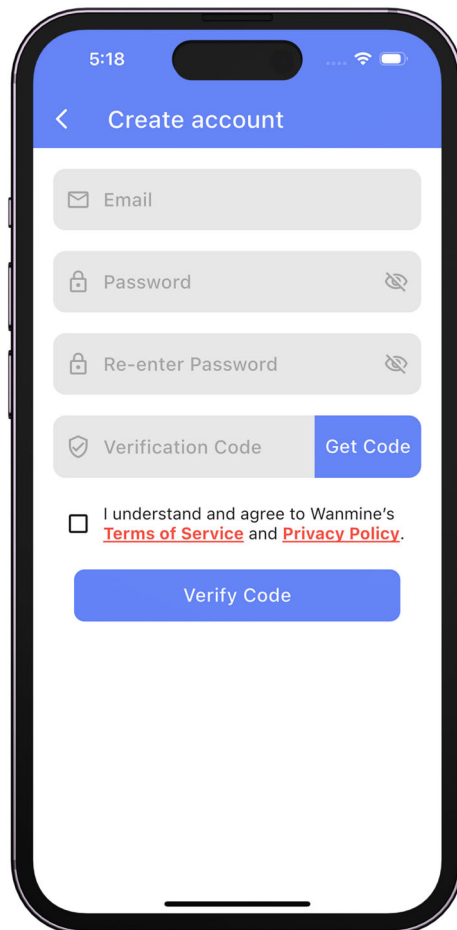

2) Get the App

To get the most out of your Wanmine Calendar, be sure to download the free Wanmine app. Just search for Wanmine in the App Store or Google Play and install it with one tap!

3) Creat an Account

Before you start using the Wanmine app, you'll need to create an account using your email. It's quick and easy —just enter your email, set a password, and you're in!

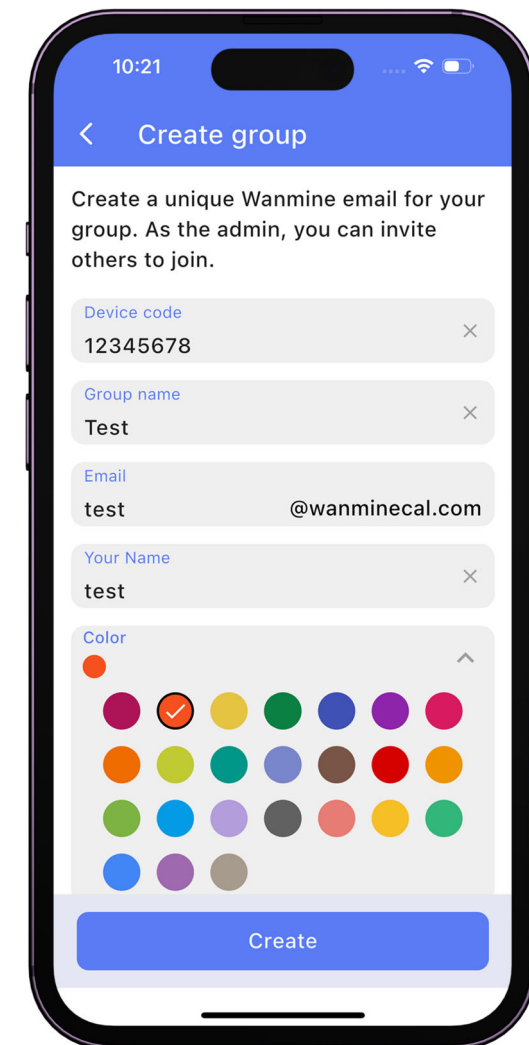

3) Group Settings

Create a Group: After creating a group, you'll become the admin. You'll get a notification whenever someone or calendar device requests to join, making it easy to manage and keep your family calendar organized.

- Group Name: used to identify and distinguish different groups for easy management and lookup.
- Group Email: serves as the unique identifier and contact for the group, used to receive notifications and invitations.
- Calendar Code: Get this code from the calendar device. The code is valid for 24 hours.
- Color: Marks your calendar and events, helping members quickly recognize your schedule.
- Your name in group will default to your registered name when creating an account, and you can also modify your display name within the group at any time.

Note: You need a device to create a group.

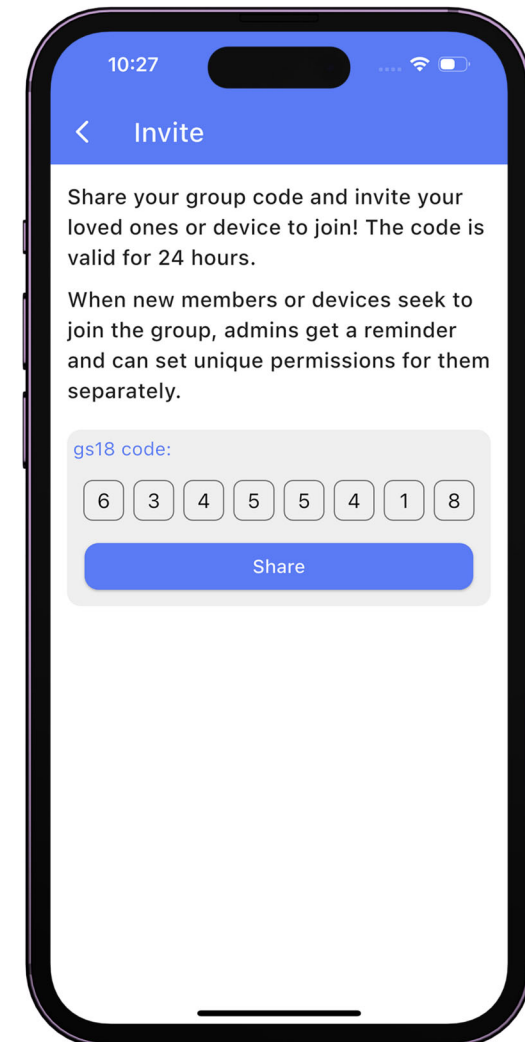

2. Getting Started

7

Invite Someone to Your Group: As a admin, you can invite others to join your group by sharing the group code. Once they enter the code and get approved, they'll be able to join and share the calendar.

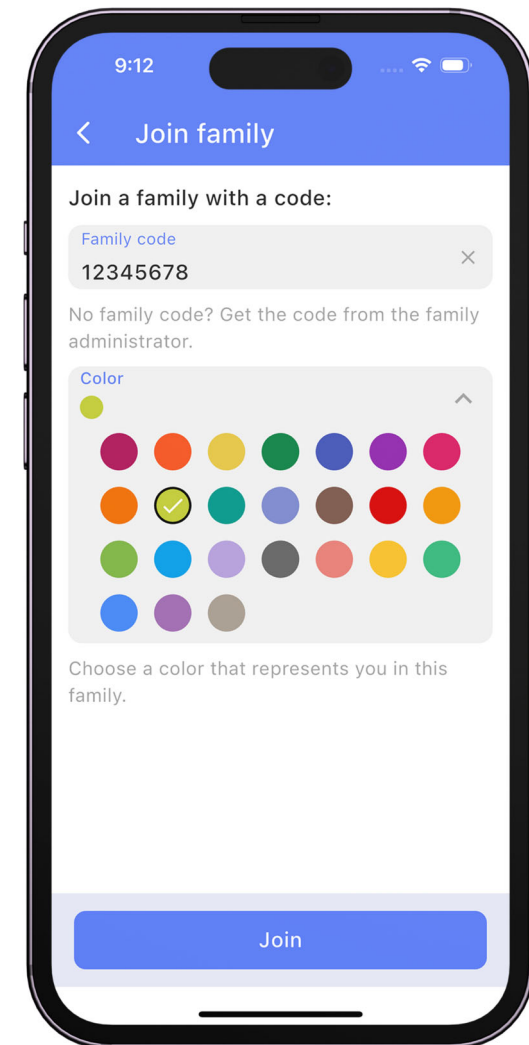

- Group Code: This code is valid for 24 hours. After that, a new code will be generated automatically. Please remind them to add it as soon as possible before the code expires.
- Note: After the request is submitted, you'll receive a notification. Once approved, the person will join your group.

2. Getting Started

Join a Group: Just ask the group admin for the group code. Once you send your request and the admin approve it, you'll be all set to join—making it easier to stay connected and in sync with your group.

- **Group Code:** This code is valid for 24 hours. After that, a new code will be generated automatically, so once you get the code, be sure to add it as soon as you can.
- **Color:** Marks your calendar and events, helping group members quickly recognize your schedule.
- Your name in this group will default to your registered name when creating an account, and you can also modify your display name within the group at any time.
