QUICK SET UP

Tips:

- 1.Make sure the parent unit, the baby unit and the power cords are out of reach of children.
- 2.The baby monitor is paired by default, ready to use after power on. If, for any reason, the parent unit and baby unit lost connection, please follow Re-Pair steps on the other side of this page.
- 3.Before using the baby monitor for the first time, charge the parent unit battery for 12 hours.
- 4.Keep the baby unit out of the reach of your baby. Never place or mount the baby unit inside the baby's crib or playpen.
- 5.Place the baby units more than 3 feet (1 meter) away from your baby.
- 6.Place the parent unit more than 3 feet (1 meter) away from the baby unit to avoid screeching noise.
- 7.The operating range of the baby monitor is up to 1000 feet(300 meters) outdoors.The actual operating range may vary depending on the environmental conditions and other interferences such as walls, doors and other obstructions.

Every 10 seconds switch to the next camera.

FAQ

Q1:How to pair parent unit & baby unit?

Ans: Parent unit & baby unit is paired by default.

If there is any lost in connection/misfunction, please follow the instruction on
page of this manual.

Q2: There is no sound heard from parent unit. What should I do?

Ans : Please make sure baby unit and parent unit are more than 6 feet (2
meters) apart to avoid screeching noise. Press volume up button of parent
unit and you should be able to heard baby's sound. If not, please try to repair
the 2 units.

Q3:Why does the baby monitor produce a high-pitched noise?

Ans: The parent units and baby unit may be too close to each other.

- Move the parent unit away from the baby units until the noise stops; or
- Turn down the volume of your parent unit.

Safety Instructions

Please read and follow the instructions below prior to using this product.

1. This product is not a toy, do not allow children to play with it.
2. Strangulation Hazard: please keep the cords away from children for at least 3 feet (1 meter) in order to avoid strangling and choking
3. Do not place the baby monitor in or near the crib or playpen. Always locate this product out of children's reach (at least 3 feet/1 meter away).
4. Avoid exposure to direct sunlight and any nearby heaters.
5. Do not use or place the product near water, for example, next to the bathtub, sink, laundry machines, shower, swimming pool, or any other wet liquid-based containers.
6. Use the adaptor provided in the package or the standard adaptor with correct polarity and voltage (Input: 100-240V, 50/60 Hz 0.2A; Output: 5V ..., 1000mA).
7. Only use the charging cables included in the package, do not use other unofficial party cable to charge the unit. This might result in overheat or electronic-component damage.
8. Only use the included rechargeable battery for the baby monitor, do not replace it with other batteries. Do not disassemble, squeeze, heat or throw it into the fire.
9. Do not overload the wall outlet or use an extension cord.
10. Do not place this product on any unstable surfaces or objects.
11. Always unplug the baby monitor from the wall outlet and power source when unused.
12. Do not insert any sharp or metal objects into the plug contacts. This might cause electric shock.
13. Unplug the product from the power supply before cleaning. Do not use any liquid or aerosol cleaners. Use a dry cloth to clean only.
14. Avoid spilling any liquid kind on this product.
15. This product is specifically designed for baby care and is not a replacement for adult supervision.
16. This product is not designed as a medical device.
17. Always test the baby monitor and check the reception status after having moved it to setup location. The signal may be affected by the item amount and materials of the wall, items, or other operation devices that also use 2.4Ghz.
18. If the baby monitor is not properly functioning, please contact the customer service team as soon as possible in order to ideally fix the issues.

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

ISED Statement

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage.
2. L'appareil doit accepter tout brouillage radioélectrique subi même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
