**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a small green printed circuit board (PCB) component, likely a solder mask or a small board, placed on a blue textured surface. A black L-shaped ruler is positioned next to it for scale. The ruler has white markings in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale ranging from 0 to 100 mm. The component is rectangular with rounded corners and features several small circular holes and a larger central hole.
Antenna View	 A photograph of the same green PCB component, showing the antenna side. A red rectangular box highlights a specific area on the board, which contains a small antenna structure. A red line points from this box to a label in the bottom right corner. The label is a red-bordered rectangle containing the text "433.92MHz Ant.". The same black L-shaped ruler is present for scale, with the horizontal scale ranging from 0 to 100 mm and the vertical scale ranging from 0 to 100 mm.
