Hey Gorgeous!

Thank you so much for your purchase! I cannot wait until you experience the power, versatility and results of getting glam with Leopara.

I created Leopara so that we no longer have to sacrifice our makeup results or comfort because of bad lighting. Consider your makeup game officially changed.

My hope is that Leopara elevates your makeup and beauty rituals like it has for so many. And that you love her as much I do. I love seeing Leopara's journeys, so be sure to tag **@leoparalights** in your posts!

Keep in touch, and bye, bye
bad lighting ;)

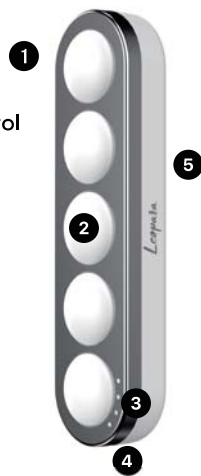

xo, Rachel

INVENTOR + FOUNDER, LEOPARA

COMPONENTS

1. Four (4) LED GlamPanels
2. Power Button/Brightness Control
3. Battery Charge Indicator
4. USB-C Charging Port
5. Nanosuction Backing
6. Travel Case
7. 4-in-1 USB Charging Cord
8. Charging Cord Pocket

6

8

HOW TO USE

1. **PRESS** and **HOLD** middle lens to turn GlamPanel **ON**. To turn GlamPanel **OFF**, repeat this same action.

2. **PLACE** GlamPanel in desired position, and **PUSH** into mirror to create suction. Repeat for each GlamPanel. To remove, gently twist and lift to release suction.

3. **SHORT PRESS** middle lens on any GlamPanel to change brightness level. GlamPanels will change together via Bluetooth. Now get glam!

BRIGHTNESS & MEMORY

Your GlamPanels have 3 levels of brightness to give you customized illumination based on your mirror activity and preference.

Brightness Level	Ideal for	Battery Duration
1	Makeup application	2 hours
2	Tweezing, shaving, grooming	1.5 hours
3	Selfies, content creation	1 hour

Your GlamPanels have a memory feature that will “remember” the last brightness setting you were using when you turned them OFF.

If you are having issues with any functions, please contact **info@Leopara.com** for reset instructions.

CHARGING

Your GlamPanels are rechargeable using the included 4-in-1 USB Charging Cord with any standard USB adapter or outlet.

When charging, the charging indicator lights will blink. Once fully charged, all 4 indicator lights will be illuminated.

We recommend charging your GlamPanels when you notice that only 1 indicator light is illuminated.

When fully charged, your GlamPanels will last up to 2 hours, depending on which brightness level you choose.

CLEANING

The nanosuction backing is designed to adhere to clean, smooth, non-porous surfaces, like glass, plastic, metal or acrylic. If the nanosuction backing is wet, oily or dirty, it will not adhere to the mirror.

We recommend keeping the nanosuction backing clean to avoid the GlamPanels falling off the mirror. The mirror needs to be clean as well!

You will know it's time to clean your GlamPanels because they may start falling off the mirror.

To clean, wipe with a damp cloth and then let dry. DO NOT use alcohol, soap, cleaning supplies, etc ... only wipe with a water dampened cloth.

TIPS & TRICKS

Leopara is about to change the way you get glam on the go forever.

Here are some tips to getting the most out of Leopara's game-changing illumination.

1. Before using, we recommend charging your GlamPanels to a full charge.
2. The closer you place the GlamPanels to each other, the brighter the illumination will be. If you prefer less, space them out further.
3. Please make sure the mirror or smooth surface is clean or else the nanosuction will not work.
4. Be sure to push the GlamPanel into the mirror to create suction. The GlamPanels ARE NOT magnetic; they adhere via suction, which requires pressure to activate.

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical appliance, basic safety precautions should always be followed, including the following:

- Turn GlamPanels OFF when not in use.
- This is not a toy and should not be used by children.
- Keep all components away from children.
- Discontinue use if components seem damaged in any way.
- Do not disassemble or alter components.
- Do not place near water, submerge in water or use a component that has fallen into water.
- Unplug immediately if system falls into water while on or while charging.
- Avoid leaving in direct sunlight and never expose it to extreme heat.

IMPORTANT SAFETY INSTRUCTIONS

DISCLAIMER

Users of this product do so at their own risk. Neither Technically Glam LLC nor its retailers assume any responsibility or liability for any injuries or damages, physical or otherwise, resulting directly or indirectly, from the use of this product.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT SAFETY INSTRUCTIONS

DISPOSAL

DO NOT dispose of the device with household waste. The GlamPanels contain a lithium-ion battery. For protection of the environment, please safely dispose of the device following your local guidelines.

WARRANTY

Your Leopara Portable Makeup Lights come with a 1-year warranty against defects in materials or workmanship for a period of 1 year from date of purchase. We agree to repair or replace any defective product without charge.

IMPORTANT: This warranty does not cover damage resulting from accident, misuse or abuse, or lack of reasonable care.

REGISTER YOUR SYSTEM

1. Visit **www.leopara.com/warranty**
2. Complete warranty form, including date of purchase and serial #.

WARNING

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions.

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
