Input parameter DC 12V 3A

Wired output

(USB-A) 5V – 2A MAX

(Type-C) 5V – 2A MAX

(Three ports) 5V – 2A MAX

Wireless output power 10 W MAX

USB-A output power 10W MAX

Type-C output power 10W MAX

Total output power 20W MAX

● Packing list

Multi-function music player _____ **1 pcs**

Extension cable _____ **1 pcs**

Instruction manual _____ **1 pcs**

● Device Overview

No.	Diagram	function
1		Power on/off (press and hold for 2 seconds) Play/pause (touch)
2		Volume down - long press; Previous song - Touch to increase
3		Volume up - long press; Next song - Touch to increase
4		Wireless charging area
5		Bluetooth networking, master-slave switching

◆ Net working

After powering on, all function buttons except the networking background light are always white. At this time, they are in standby mode. Please refer to the following operations to become the master or slave as needed.

◆ Become a host :

After turning on the phone, search for the Bluetooth name “Lifestyle Audio MP16” .
After the connection is successful, the player becomes the host.

Host background light status:

[The white light of the power button is always on]

[The white light of the networking button is always on]

[The white light of other buttons is always on]

◆ Become a slave :

After powering on, without connecting to the mobile phone,
just press and hold the networking button to turn it into a slave device,
automatically connect to a nearby host, and play the content played by the host synchronously.

Slave device background light status:

[The white light of the power button is always on]

[The green light of the networking button is always on]

[The white light of other buttons is always on]

- ◆ **After successful networking, you can only adjust the volume, switch songs, and play or pause of slave player by host player. The slaves cannot be adjusted.**

- ◆ **Disable network function**
Long press the host network button will cancel the group connection between the host and all connected slaves and turn off all players.
Long press the slave network button only cancels the group connection between the slave and the host and turns off the slave player only.

● Basic operation

Connect the power adapter

Connect the power adapter's DC voltage end to the product host's power input end, and then connect the other end of the power adapter to a 110V-240VAC power source.

When performing the above operations, be sure to keep your hands dry.

If you do not use this product for a long time, disconnect this product from the power supply. Do not forcibly pull the power cord to unplug the power supply.

Bluetooth mode

After turning on the player, open the Bluetooth pairing interface of the mobile phone and search for “Lifestyle Audio MP16” for pairing.

After pairing is successful, you can play songs through the Bluetooth of the mobile phone.

Note:

Bluetooth only supports 1-to-1 connection.

When a device is connected to this product via Bluetooth, other devices cannot be connected.

Incoming call

When music is playing, the player will pause the music when there is an incoming call, but the ringtone and call content will not be played.

● Warranty

The warranty period of this product is 12 months from the date of purchase.

Accessing products that are not compatible with this product will result in you losing your warranty rights. This product is damaged due to personal negligence and is not covered by warranty.

● Warnings

Children under 13 years old should be used with accompanied by an adult.

This product is only suitable for indoor use.

If the device is exposed to water or enters a very humid environment, please cut off the power supply immediately and connect it after it is completely dry. To prevent electric shock or burns, do not disassemble this product by yourself.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

● Warnings

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
