

PARTS & DESCRIPTION

- 1. Base
- 2. Touch Switch
- 3. Shade
- 4. Pole
- 5. Wireless charging
- 6. USB output
- 7. Power Adapter

SPECIFICATIONS

Model	Voltage	Power
HT6903SX 7W DIM+CCT	12V 2A	7W

IMPORTANT SAFEGUARDS

To ensure your desk lamp provides long-lasting enjoyment, please observe the following safety instructions:

- 1. Before first connecting the appliance, please ensure that the voltage indicated on the rating label corresponds to the mains voltage in your home.
- 2. This desk lamp has been checked for full conformity with quality standards and safety requirements.
- 3. The manufacturer is not responsible for damage to property or injury to people caused by improper use of the unit.
- 4. If you have any doubts, please consult a qualified specialist.

USING YOUR DESK LAMP

- 1. Do not use the desk lamp outdoors.
- 2. Unpack and place the desk lamp on a flat surface.
- 3. Plug into the power supply.
- 4. Adjust the pole to the location you want.

How to use 5V 1A USB output

- Connect the table lamp and your mobile phone with a 5V 1A USB cable, then charge your mobile phone.
- You can also connect other devices to the table lamp using a USB cable.

Wireless charging:

- Directly place your mobile phone on the lamp base.

CLEANING

- 1. Before cleaning, always unplug the desk lamp from the power supply.
- 2. Wipe the base, shade, and stem (or soft tube) with a damp cloth.
- 3. Do not immerse the appliance in water or use detergent/abrasives for cleaning.

RF exposure considerations

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Refer to KDB 784748 Annex A section A.5:

(a) Max. Electric Field Emissions: 4.45V/m
Max. Magnetic Field Emissions: 0.34A/m

(b) The maintenance of the system is the responsibility of the manufacturer.

(c) To prevent interference, the product should be as far away from devices operating at the same frequency as possible.

(d) This product may cause interference to radio equipment and should not be installed near maritime safety communications equipment or other critical navigation or communication equipment operating between 0.45-30 MHz.
