

Sensor Box User Manual

Note: All the pictures in this manual are for reference only, subject to our available products.

◆ Safety Warning

Before using and operating this device, please read thoroughly and comply with the following precautions in order to prevent accidents or inaccurate operations.

★ Placement

DO NOT charge or use the device in dusty or wet conditions, to prevent internal circuit failure. Keep the device away from heat sources such as an electric heater. Normal operating temperature is 0–40°C, normal operating humidity is 10%–90%RH.

★ Children Safety

The product and accessories may contain some small-part. Please place them beyond the reach of children in avoidance of swallowing danger.

★ Water Precaution

The product is not waterproof, please keep it dry.

★ Maintenance

When the equipment is damaged, please do not disassemble it for repair without permission, please call customer service to report for repair. Please contact professional service personnel for maintenance services. DO NOT insert any sharp or pointed object into the device. Prevent the device from falls and collisions with other objects, which may cause damages.

◆ Statement

- (1) Intellectual property right statement: The hardware design and software of this product are covered by the patents. Anyone who reproduces this product or the content of the instruction without the authorization of the Company shall assume legal liabilities.
- (2) This manual is for reference only, and the actual function of the final product is subject to the actual function of the product received by the customer.
- (3) The picture is for reference only, please refer to the actual product. The company reserves the right to improve and change the appearance and design of the product without notice.

Note: The CO₂ data of this equipment is calculated by measuring TVOC simulation instead of direct measurement.

This symbol, affixed to the product or its packaging, indicates that the product must not be processed with household waste. It must be brought to an electric and electronic waste collection point for recycling and disposal. By the appropriate disposal of this product you also help in preventing potentially negative consequences for the environment and human health. The recycling of materials helps preserve our natural resources. For further information regarding the recycling of this product, please contact your municipality, local waste disposal center or the store where the product was purchased.

1.Installation Procedure

Warning: Please make sure the power cord of the Interactive Intelligent Panel is disconnected before installation.

(1) Installation without Bracket

① Position the Sensor Box to the bottom of the Interactive Intelligent Panel in the direction of the arrow.

② Lock the Sensor Box to the bottom of the Interactive Intelligent Panel with screws.

③ Use a USB cable to connect the Sensor Box to the USB interface of the Interactive Intelligent Panel.

④ Complete assembly.

(2) Installation with Bracket

① Remove the two screws on the lower left corner of the Interactive Intelligent Panel.

② Align the through hole of the bracket with the lower left corner of the Interactive Intelligent Panel, and fix it with the cross-slot screw in the accessory package.

③ Hand-tighten the screws to secure the Sensor Box module to the bracket.

④ Complete assembly.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
