Name and content of hazardous substances in products

Name and content of hazardous substances in products

Part Name	Harmful materials					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Printed circuit assembly	○	○	○	○	○	○
Small structures/parts such as shell	○	○	○	○	○	○

This form is compiled in accordance with SJ/T 11364.
○: Indicates that the content of the hazardous substance in all homogeneous materials of the part is below the limit requirements specified in GB/T 26572.
×: Indicates that the content of the hazardous substance in at least one of the homogeneous materials of the part exceeds the limit requirements specified in GB/T 26572.
The parts marked with "x" on the form are all harmful due to the limitations of global technological development. Substitution of substances.

Printed circuit board components*: including printed circuit boards and their parts, electronic components, etc. Depending on the product model, the product you purchased may not contain all the above components.

*Electronic and electrical products sold in the People's Republic of China must mark this Logo, the number in the logo represents the product under normal use Environmental protection use period.

Warranty Service

Dear user, this warranty card is the proof of your future warranty application, please cooperate with the seller to fill it out and keep it for future use!

FCC Statement

According to Part 15 of the FCC Rules, this device has been tested to meet the restrictions for Class B digital devices. These restraining decrees In providing reasonable protection against harmful disturbances in residential facilities. The device generates and uses radiofrequency energy. If this instruction is not installed and used in accordance with the regulations, it may cause harmful interference to radio communications. However, there are There is no guarantee that interference will not occur in a particular installation. If this device has built for radio or television reception Into harmful interference, the device can be determined by turning it off and on when the user is encouraged to try to pass through one or Several more measures below

- Redirect or reposition the receiving antenna.
- Increase the distance between device and receiver.
- Sockets connected to devices on circuits different from the receiver are connected.
- Please consult a dealer or experienced radio/TV technician for assistance.

This device complies with Part 15 of the FCC Rules. The operation is restricted by the following two conditions

- (1) The device shall not cause harmful interference.
- (2) The device must accept any received interference, including interference that may cause unexpected operation.

Changes or modifications that are not explicitly approved by the compliance responsible party may invalidate the user's permission to operate the device.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 2cm between the radiator and your body.
