Names and contents of hazardous substances in products

Part Name	Harmful substances					
	Pb	Hg	Cd	Cr (VI)	PBB	PBDE
Diphenyl ether	○	○	○	○	○	○
Small structural parts such as housings	○	○	○	○	○	○

This table is prepared according to the provisions of SJ/T11364
 ○ : means that the content of harmful substances in all homogeneous materials of the part is below the limit requirement of GB/T26572.
 X : indicates that the content of the hazardous substance in at least one homogeneous material of the part exceeds the limit specified in GB26572.
 The parts marked with "X" in the table are all unable to achieve the substitution of harmful substances due to the limitation of global technology development level.

This table is prepared in accordance with the provisions of SJ/T11364
 Printed circuit board components*: including printed circuit boards and their parts, electronic components, etc.;
 Depending on the product model, the product you purchase may not contain all of the above components.

10

Electrical and electronic products sold in the People's Republic of China must be marked with this logo, the number within the logo represents the product's environmental life under normal conditions of use.

Warranty statement

Disclaimer
 This user manual does not have any form of guarantee, position expression or other implication. The mentioned products, specifications and information are for reference only, and the content will also be updated on the web at any time without additional separate notice.

Warranty statement:
 The product attached to this document is guaranteed as follows: if the product is within 12 months from the date of purchase ("Warranty Period"), under normal conditions of use due to quality defects damaged, can be repaired free of charge; free replacement if the manufacturer confirms that it cannot be repaired/repaired or replaced product. Continue to enjoy the warranty during the remaining warranty period (the shortest not less than 30 days). Purchased by salient ticket date shall prevail; if the purchase date cannot be determined, the warranty period shall be 13(13) month(s) you apply for a warranty, please call the product service hotline first and execute it in the manner instructed by us. When applying for warranty, you need to provide an accurate, complete and clearly filled-out valid sales invoice.

The above guarantee does not apply to the following situations:
 1.Exceeding the validity period of the three packs;
 2.Alter the warranty card and product code does not match the product body;
 3.Causes caused by misuse or improper transportation, use, maintenance or storage obstacles or damage;
 4.Failure or damage caused by force majeure (such as earthquake, war, disaster, etc.) or accident pad;
 5.The zipper and lower buckle are damaged due to excessive force;
 6.Disconnection or tearing caused by excessive load;
 7.Any damage caused by sharp objects;
 8.Products with signs of burning or flooding;
 9.Damage caused by unauthorized disassembly;
 10.Aging, discoloration, abrasion, rupture and other losses that occur during the normal use of the product;
 11.If the original identification label of the product is changed or damaged, this guarantee will become invalid.

The completeness and appearance of the product and accompanying materials are not within the scope of the guarantee. You should check on the spot and raise objections to any discrepancies. The above guarantees are all guarantees we make regarding the products, and are only applicable in mainland China. Nothing in this document affects consumer rights that cannot be excluded or restricted under the law provision.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
