Quick Start Guide Smart Camera

* **Note:** This Quick Start Guide applies to the above two products with different housings.

Packing List

- Smart Camera
- USB-C Charging Cable
- Mounting Bracket
- Screw and Anchor
- Mounting Template
- Pin (used for reset)
- Quick Start Guide
- Solar Panel

* Only suitable for SDU with solar panel

Product Description

- Spotlight
- Camera Lens
- Light Sensor
- IR Lamp
- Microphone
- LED Indicator
- PIR Sensor
- Reset Button
- Type-C Charging Port
- SD Card Slot
- Power/Reset Button
- Mounting Hole
- Speaker

Product Description

Status Indicator	Indicator	Meaning
Red	Flashes	Ready to set up
	Solid	Abnormal boot
Green	Flashes	Wi-Fi connecting
	Solid	Wi-Fi connection successful
Yellow	Flashes	Upgrading firmware
	Solid	Charging
White	Flashes	Abnormal charging

Button	Action	Duration
Power/Reset Button	Power on	Press and hold the button for 2-3 seconds
	Power off	Quickly press 3 times within 2 seconds
	Reset	Press and hold the button for 5 seconds
	Wake up	Short press the button (in deep state or in the state of low battery shutdown)
Reset Button	Restart	Insert the pin into the hole, press and hold for more than 5 seconds and release

Charging

It is recommended to fully charge before use.

Charging status LED Indicator

Charging	Status
White	Full charged
	Abnormal charging

Note: Please close the cover after charging.

Get the Smart Life App

- Download the Smart Life App from App Store or Google Play. Or scan the QR code as below with your smartphone.
- Register an account on your Smart Life App.

Step 1: Enter your smart phone number or email address.

Step 2: Enter the verification code and create a password.

Add Camera

Note:

- Make sure your smartphone is connected to a 2.4GHz Wi-Fi network.
- Please keep the camera close to the Wi-Fi router during the adding process.

1. Get ready to set up

- Power on or reset the camera to get it into the ready-to-setup state.
- When the camera enters the ready-to-setup state, the indicator light will blink in red and play a prompt.

Note: If the indicator light does not blink in red, press and hold the power button for 5 seconds to reset the camera.

2. Add camera to App

Method 1: Quick connection

Note: Make sure you have turned on your smartphone's Bluetooth and grant the corresponding permissions to the Smart Life App.

Add camera

Method 2: Add camera via QR code

- Click the "+" icon or "Add Device" button on the home page (Figure 1).
- Select "Smart Camera (Wi-Fi)" (Figure 2).
- Power on or reset the camera to get it into the ready-to-setup state, then click "Next" button (Figure 3).

- Enter Wi-Fi password and click "Next" (Figure 4).

Note: The camera only support 2.4GHz Wi-Fi.

- Scan the QR code with camera, then click "I heard a Prompt" button (Figure 5).
- Wait for the adding process to complete automatically and then click "Done" button (Figure 6).

Installing Camera

- Select the installation location. The recommended installation location height is 2-3m.
- According to the installation template, drill holes with a 15/64"(6 mm) drill bit, then insert the anchor into the holes and screw the mounting bracket to the wall. For soft surface such as wood, you don't need to pre-drill holes and you can just directly use the screws to fix the bracket (Figure 1).
- Install the camera on the mounting bracket and adjust the camera angle (Figure 2).
- Tighten the adjustment knob to lock the camera (Figure 3).

Installing Solar Panel

Note: The solar panel uses the same mounting bracket as the camera.

Tips:

- Find the area that gets the most direct sunlight throughout the day. Angle the solar panel upward 30°. Point it south if in the northern hemisphere and north if in the southern hemisphere.
- Periodically wipe the surface of the solar panel with a soft, damp cloth to remove dust or debris.

Installation

- Choose a suitable installation location, fix the mounting bracket, and install the solar panel on the bracket (Figure 1).
- Adjust the angle of the solar panel to get enough sunlight, then tighten the adjustment knob to lock the solar panel (Figure 2).
- Open the silicone cover of the charging port at the bottom of the camera (Figure 3), and then insert the Type-C charging head of the solar panel to complete the connection (Figure 4).

Technical Specifications

Operating temperature: -20℃ ~ 50℃; Operating humidity: 10%-95% No condensation; Charging temperature: 0℃ ~ 45℃; Frequency Range: 2.412-2.472GHz (EU), RF Max Power: ≤ 20dBm, Frequency Range: 2.412-2.482GHz (USCA); Power: General 5V Direct Current 1.0A Max, symbol  means direct current.

warning

Federal Communications Commission (FCC) Declaration of Conformity

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

English Warning Statement:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

French Warning Statement:

Cet appareil conforme aux normes sans licence de l'Industrie Canada applicables aux appareils radio exempts de licence. L'utilisation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

This equipment complies with Canada RF exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet appareil est conforme aux limites d'exposition aux rayonnements de RF établies pour un environnement non contrôlé. L'appareil doit être installé et utilisé avec une distance minimale de 20cm entre le radiateur et votre corps.

Declaration of Conformity European Notice

 Shenzhen Zhejiang Linghu Technology Co., Ltd. declares that this product is in compliance with essential requirements and other relevant provisions of Directive 2014/53/EU, 2011/65/EU.

 This product must not be disposed of as normal household waste, in accordance with EU directive for waste electrical and electronic equipment (WEEE-2012/19/EU). Instead, it should be disposed of by returning it to the point of sale, or to a municipal recycling collection point.

The device could be used with a separation distance of 20cm to the human body.
