

**SCULPFUN x ICUBE ULTRA**  
Version:V1.2

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.

## 1 Safety Information (Read Carefully)

1. Make sure the machine is placed on a stable platform during operation.
2. As laser radiation can cause eye injury, protective measures should be taken before operating the machine. Always wear safety goggles to protect your eyes from laser hazards.
3. Do not move the machine or the engraving material while the machine is operating, as this may affect engraving quality or pose safety risks. Do not leave the machine unattended during operation.
4. Minors must operate this product under the supervision and assistance of an adult.
5. Do not disassemble any parts of the machine when it is powered on, to avoid accidentally touching the power supply. Also, do not touch any electronic components with your hands or other tools.
6. Stop using the product and disconnect the power immediately if any of the following situations occur.
  - A burnt smell is detected coming from the machine.
  - An open flame is generated from the engraving material.
  - The internal components of this product have been damaged.
  - This product stops working unexpectedly.
  - The product emits abnormal noises or flashes of light not previously observed.
7. Caution—use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.
8. The 'Safety Door' function of this machine is enabled by default. You can configure the Safety Door settings by entering the following commands in the LightBurn console.
  - \$safe=0 (It indicates that the 'Safety Door' function is disabled, allowing the machine to operate without the protective cover. Be sure to wear goggles for safety protection.)
  - \$safe=1 (It indicates that the 'Safety Door' function is enabled. The machine will not start engraving unless the protective cover is properly installed.)
9. Warning and Indicator Labels

The warning and indicator labels are placed in areas where potential hazards may occur before or during operating. Replace the labels immediately if damaged or missing. You can use the templates below to copy and print the labels you need (printable files are available in the online manual).

5 Installation Steps and Focusing

- 1
- EN

Remove the protective cover and foam padding.
- DE

Entfernen Sie die Schutzabdeckung und das Schaumstoffpolster.
- FR

Retirez le capot de protection et le rembourrage en mousse.
- IT

Rimuovere la copertura protettiva e il rivestimento in schiuma.
- ES

Quite la cubierta protectora y el relleno de espuma.
- PL

Usunąć pokrywę ochronną i padding z pianki.

- 2
- EN

Remove the base plate.
- DE

Entfernen Sie die Grundplatte.
- FR

Retirez la plaque de base.
- IT

Rimuovere la placca di base.
- ES

Quite la placa base.
- PL

Usunąć podłoże.

-08-

5 Installation Steps and Focusing

- 3
- EN

Lay the machine on its side and install the laser head.
- DE

Legen Sie die Maschine auf die Seite und installieren Sie den Laserkopf.
- FR

Posez la machine sur le côté et installez la tête laser.
- IT

Posizionare la macchina su un lato e installare la testina laser.
- ES

Coloque la máquina de lado e instale la cabeza láser.
- PL

Położyć maszynę na boki i zainstaluj głowę lasera.

- 4
- EN

Secure the laser head at the proper position. If it is installed too high, it will be unable to focus.
- DE

Festsetzen Sie den Laserkopf an der richtigen Position. Wenn er zu hoch installiert ist, kann er nicht fokussieren.
- FR

Fixez la tête laser à la position appropriée. Si elle est installée trop haut, elle ne pourra pas se focaliser.
- IT

Fissare la testa laser nella posizione giusta. Se installata troppo alta, non potrà fociare.
- ES

Asegure la cabeza láser en la posición adecuada. Si está instalada demasiado alto, no podrá enfocar.
- PL

Zainstaluj głowę lasera w odpowiedniej pozycji. Jeśli jest ona zainstalowana zbyt wysoko, nie będzie można ustawić fokusu.

-09-

5 Installation Steps and Focusing

- 5
- EN

Insert the terminal cable.
- DE

Stecken Sie den Kabelendstift ein.
- FR

Insérez le câble terminal.
- IT

Inserire il cavo terminale.
- ES

Inserte el cable terminal.
- PL

Wprowadź kabel terminalny.
