

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**Solder
Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) with various electronic components, including a large black integrated circuit (IC) in the center, several capacitors, and a small circular component on the right. The board is placed on a blue textured surface next to a metal ruler. The ruler has two scales: a vertical scale on the left marked from 1 to 16 cm, and a horizontal scale at the bottom marked from 1 to 20 cm. The board's dimensions are approximately 10 cm by 10 cm.
Solder Board-Component View 3	 A photograph of the same green PCB from a different angle, showing the underside or a different side. It features gold-colored pads and traces, and a small black component on the right. The board is placed on the same blue textured surface next to the same metal ruler. The ruler's vertical scale on the left is marked from 1 to 18 cm, and the horizontal scale at the bottom is marked from 1 to 20 cm. The board's dimensions are consistent with View 2.

Solder Board-Component View 4	 A photograph of a small electronic component, likely a solder board, placed on a blue textured surface. The component is rectangular with a gold-colored flex cable attached to one end. It features three circular solder pads and some printed text including "D156 KEY-FC-V02", "PM2", "VAL", and "101". Two metal rulers are positioned around the component for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler shows the component is approximately 1.5 cm high, and the horizontal ruler shows it is about 4 cm wide.
Solder Board-Component View 5	 A photograph of the same electronic component from a different angle, showing its underside. The component is rectangular with a gold-colored flex cable attached to one end. It has two circular solder pads and some printed text including "D156 KEY-FC-V02", "PM2", "VAL", and "101". Two metal rulers are positioned around the component for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler shows the component is approximately 1.5 cm high, and the horizontal ruler shows it is about 4 cm wide.
