Assembly Instructions

First, decide whether you'd like to display your Calendar in landscape (horizontal) or portrait (vertical) orientation.

Tools Needed

- Pencil
- Tape measure
- Drill and a 5/16" size drill bit (not included)

Wall Mount

1. Choose either landscape or portrait orientation. Use a pencil to mark the wall where you want the top center of your Calendar to be. From this spot, measure straight down 4.5" for landscape orientation or 7.5" for portrait orientation and make another mark. This will be the height of the mounting bracket.

2. Hold the mounting bracket up to the wall and use a pencil to mark Hole 1.

3. Take the bracket off the wall and drill through **Hole 1**. Insert the wall anchor in the hole you made then attach the mounting bracket to the wall with an included screw in **Hole 1**.

5. Drill holes where the remaining 3 holes should go.

6. Insert the remaining 3 wall anchors in **Holes 2-4**.

7. Install the remaining 3 screws in **Holes 2-4**.

8. Your bracket is now successfully installed.

WARNING: Improper installation can cause property damage, injury or death, can result in the power cord being disconnected and can invalidate the warranty. Read all instructions carefully and watch the installation video before installing this product.

11. Guide the back of your Calendar over the mounting bracket and slide it into place.

Horizontal

Vertical

12. Your Calendar will securely lock into place when successfully installed.

13. Plug the power adapter into an outlet.

14. Your Calendar 2 is now installed!

15. If you need to remove your Calendar, lift your Calendar completely free from the mounting bracket before pulling it away from the wall so you don't displace the wall anchors.

Stand Steps

(Landscape Orientation Only)

1. Connect the power cable in the back of your Calendar.

2. Insert the stand in the back of your Calendar, taking care to align the top notches into the recesses.

3. Secure the stand with the provided screw.

4. Plug the power adapter into an outlet.

5. Adjust the stand to the desired angle. Your Calendar 2 is now set up!
