Operating Instruction of Car Bluetooth Player

Features:

This product adopts directly read audio files in the mobile phones Bluetooth/TF card/U disk. This product supports Bluetooth audio playback and Bluetooth hands-free calling. This product supports lossless high-frequency decoding; this product is a multi-function car MP3 that integrates the battery voltage health warning of the locomotive and the high-current car charger.

1: Support Bluetooth music/TF card/U disk playback, and Bluetooth hands-free call;
2: Dual USB charging 5V 1A/5V1.5A/5V 3.1A (some models are equipped with Type C charging/QC3.0/5W, 18W fast charging);
3: LED digital screen display; screen points, song number and working status information can be displayed;
4: Power-off memory;
5: EQ (press One Key to improve 5 kinds of sound quality) (some models)
6: Colorful (7+1) lighting mode (some models)

Key Function Use:

1: Rotate left and right, the Key can adjust the volume, press and hold the Key for 3 seconds, release it, and switch to a mode after a beep. Long press for 5 seconds, when the display point flashes, release the left and right rotation, Key can adjust the frequency to make it the same as the frequency on the car, (For the Key Version, when the screen point is flashing, you need to press the Key for frequency debugging, and the Key Reset need to be rotated 90 degrees left and right for screen point debugging)
2: Press the Key to select the previous and next song (for the Key Version, long press to adjust the volume)
3: Press the Key EQ once to change a sound quality. (5 types of sound quality are available; only models with EQ provide this function)
4: Press the Key once to change a light mode, long press for 2 seconds and release it to cycle 5-7 light modes,

press and hold for 5 seconds to turn off the light. When off, press it once to turn on the light. (This function is only available on the lantern model)
5: For some models with Key M, press to switch the Bluetooth/USB/TF card mode. press the screen point on the display to flash, and then rotate the Key or press the Key to debug the car radio screen

Bluetooth Connection:

1: Search for the Bluetooth name T6 on the mobile phone, click the link to pair successfully, and you can listen to music or make calls
2: Provide the function of automatically reporting the phone number of incoming calls.
3: When a call comes in, press the Key to answer the call with one-key hands-free, press the Key again to hang up the call, and double-click the Key to call back

U Disk/TF Card Use:

1: Insert the U disk or TF card, the songs of the U disk or TF card are automatically played in the car.

Technical Parameters:

1: Operating voltage: 12-24V
2: USB output: 5V 1A/5V 3A (some models QC3.0/5W/18W fast charge Type C)

3: Play format: MP3 WMA SNR60DB
4: Bluetooth version: 5.0
5: Bluetooth transmission distance: 5-10 meters
7: Bluetooth conversation distance: 0.5-2 meters

Product List: outer packaging, machine, manual, 3.5 audio cable, remotecontrol (some models with sub-functions).

CORRECT DISPOSAL OF THIS PRODUCT

(Waste Electrical & Electronic Equipment)

- 1.This marking shown on the product or its literature, indicates that it should not be disposed of with other household wastes at the end of its working life
2. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of waste and recycle it responsibly to promote the sustainable reuse of material resources.
3. This product should not be mixed with other commercial waste for treatment

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
