Applicant Name: **Jingtong (Quanzhou) Electronics Co., Ltd**

Dear Examiner,

The host equipment: **K9** (FCC ID: **2BFGEJT-K9**) is a new product with one certified module (**M12** (Module FCC ID:**2AR45-M12**)). Grant date: **04/15/2024**) integrated.

This module is a Single Module, which is integrated into the host without any impact on the RF performance. and can be integrated into the main unit without affecting RF performance. Considering the antenna is designed for the Host (**K9**), we retested the power, effective radiated power, equivalent isotropic radiated power, and received signal strength after integrating the module. When the main unit (**K9**) integrates this module, and the device is less than 20 cm from the human body, it is considered a portable device. SAR testing has been re-evaluated. the host (**K9**) has added Bluetooth BR/EDR+LE, 2.4GHz WiFi function, and we have conducted a full test for this part.

Test report data clarification:
