

LILLYCOVER CO., LTD.

Confirmation of Non-Usage of Bluetooth Functionality in Muilli2 Device

To Whom It May Concern,

I am writing on behalf of LILLYCOVER CO., LTD. in connection with the FCC certification process for our skin diagnostic device, "Muilli2", which incorporates the ESP32-WROVER-E RF module equipped with both Wi-Fi and Bluetooth functionalities.

Please be advised that although the Muilli2 device is equipped with Bluetooth capabilities as part of the integrated RF module, LILLYCOVER CO., LTD. has not enabled nor does it utilize the Bluetooth functionality in any manner for this device. The Wi-Fi connection is solely used for all wireless communications and operations of the Muilli2 device.

This letter serves as a formal statement and confirmation that the Bluetooth mode is not activated, used, or necessary for the operation of our Muilli2 device, and there is no intention to use this functionality in the current or future applications of the product.

Sincerely,

LILLYCOVER CO., LTD.
