

6) How to charge?

When the battery is low than 10%, the Bluetooth LED will blink red and you will hear a beep sound every five minutes. To charge your headsets, please plug in with the type-C charging cable and connect to the power.

7) How does the dual connection work?

1. Pair the headsets with device A.
2. Turn off device A's Bluetooth function and set the Headsets into pairing mode (LED indicator blinks RED & BLUE alternatively.)
3. Pair the headsets with device B.
4. Turn on device A's Bluetooth and pair with the headsets again. Both devices are connected to the Headsets now.

Note: the above steps are for first time setup only. ASTRUM MX PRO will connect automatically next time.

Product Specification

BT version: 5.1

Noise cancellation rate: approximately 98%

Supported profiles: HFP, HSP, A2DP, AVRCP

Audio codec: AAC, aptX, aptX Low Latency

Audio impedance: 32 Ohm

Charging time: about 3.5 hours

Operational range: $\geq 10\text{m}$

Wired connection: 3.5mm audio cable

Working time (Wireless only): 25 hours

Working time (Wireless + noise cancelling): 15 hours

Package Content

1. Headsets
2. Type-C charging cable
3. 3.5mm audio cable
4. Small mesh bag
5. Dual plug adapter
6. Hard carrying case
7. Use manual

Care And Maintenance

Consider turning your headsets off before place them in your pocket or bag. If the MFB button is accidentally activated, your mobile phone may place an unintended call.

Do not expose the headsets to liquid, moisture or humidity, as the headsets are not waterproof.

Do not use abrasive cleaning solvents to clean the headsets.

Do not expose the headsets to extreme temperature conditions.

Store your headsets where the temperature is between 0°C to 25°C (32°F to 77°F). Don't leave your headsets in your car, because temperatures in parked cars can exceed this range.

Do not dispose of the headsets in a fire as this may result in an explosion.

Do not bring your headsets into contact with sharp objects as this will cause scratches and damage.

Do not attempt to take apart the headsets as they do not contain serviceable components.

If you do not use the headsets for long periods, store them in a dry place, free from extreme temperature conditions, moisture and dust.

Incorrect charging can cause an electronic shock when the headsets is subsequently used.

Only charge the headsets built-in battery in accordance with the instructions contained within this user guide.

Avoid charging the headsets in extreme temperature conditions.

Note:

Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

On Bluetooth communications

Bluetooth wireless technology operates within about 10m (30 feet) range.

The maximum communication distance may vary depending on the presence of obstacles (people, metal objects, walls, etc.) or the electromagnetic environment.

When using the headset to perform hands-free talking on the phone, noise may occur depending on the connected device or the communication environment.

Depending on the device to be connected, it may require some time to start communications.

Notes on wearing the headset

Because the headset achieves a tight seal over the ears, forcibly pressing it against your ears or quickly pulling it off can result in eardrum damage. The speaker's diaphragm may produce a clicking sound when wearing the headset. This is not a malfunction.

Other notes

Do not subject the headset to excessive shock, as it is a precision device. The touch sensor may not operate correctly if you apply stickers or other adhesive items to the control panel. When you use the headset as a wired headphones, use the supplied headphone cable only. Make sure that the headphone cable is firmly inserted.

The Bluetooth function may not work with a mobile phone, depending on the signal conditions and the surrounding environment. Do not apply weight or pressure to the headset for long periods, including when it is stored, as it may cause deformation.

If you experience discomfort while using the headset, stop immediately. The earpads may be damaged or deteriorate with long-term use and storage. The headset is not waterproof. If water or foreign matter enters the headset, it may result in fire or electric shock. If water or foreign matter enters the headset, stop use immediately and consult your nearest Astrum dealer. Cleaning the headset When the headset exterior is dirty, clean it with a soft, dry cloth. If the headset is particularly dirty, soak a cloth in diluted neutral detergent and wring it well before using it to clean the headset. Do not use solvents such as thinner, benzene, or alcohol, as they may damage the finish on the surface of the headset or cause other damage. Keep the headset (including accessories) away from the magnetic card. The headset (including accessories) has magnets.

If you bring a magnetic card close to the headset, the card magnet may be affected and become unusable.

Product Safety Information

Improper use of the product can easily cause damage to the product or may endanger personal and property safety.

1. The battery is included in the product. Please avoid exposing your product to the sunlight, electric heater or similar overheating environments. Do not store the product in high temperature strong light and strong magnetic places.
high or low extreme temperatures that a battery can be subjected to during use, storage or transportation; and low air pressure at high altitude.
2. Do not keep it in other harsh environments such as fire source.
Intense physical actions such as knocking, throwing, trampling on and squeezing etc. shall be avoided. Do not use it in case of expansion.
3. The ambient temperature of the product is 0°C to 45°C (32°F to 113°F).
4. Inappropriate use of the product against this user manual or ignoring warnings can easily cause damage the product or may endanger personal and property safety. Consumer shall bear for all the consequences, to which our company will not assume any legal liability.
5. Decomposition of this product by non-professionals is strictly prohibited.
6. Do not use a load (electrical appliances) that exceeds the output current of this product. A circuit protection mechanism is built in to automatically stop working if loads exceed.
7. Please use a clean cotton cloth to clean the charging contacts of headsets regularly to prevent it from failing to charge or turn on due to missing cleaning for a long time.
8. Do not put this product in water (or washing machine), If water enters the product, let it dry naturally before using it.
