

JYD-C68 Wireless helmet headphones  User Manual	Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: – Reorient or relocate the receiving antenna. – Increase the separation between the equipment and receiver. – Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. – Consult the dealer or an experienced radio/TV technician for help.	Welcome to the JYD-C68 Wireless helmet headphones. We hope that after carefully reading this manual, you will find the operation simpler and the installation more convenient and faster. Product Overview: JYD-C68 is equipped with the latest 5.4 wireless chip, which uses advanced wireless technology to achieve stereo and powerful performance. It provides excellent transmission, ultra-low power consumption, and compatibility with all wireless devices. The automatic answer function allows you to answer calls without manually picking up the phone, safety and convenience. It also has a 40mm high-quality speaker with a strong magnet, providing excellent audio performance. Power On/Off: Press and hold the power button  for two to three seconds to power on. The indicator light will flash alternately in red and blue, indicating the headset is powered on. To power off, press and hold the power button for two to three seconds again.
