

Spot 2

Better Than Ever.

We listened.
We improved.
We redefined the experience.

Built from real feedback from models and users — stronger, smarter, and the best egg vibrator on the market.

What's New

Unbreakable Connection

The most reliable interactive wearable vibrator on the market.
No drops. No interruptions. In any position.

10+ Hour Battery

Longer sessions. Faster charging.

Refined Lightshow

Now on one side only.
Brighter. Cleaner. More elegant.

Better Ergonomics

Button repositioned to the back.
More natural. More comfortable.

Premium Finish

New pink color. Metallic high-end finish.
Luxury feel. Premium quality.

Set Up/Connection

1. Charge the Device

Use the magnetic USB charger and wait until the LED turns solid green (about 1 hour).

2. Download the FeelConnect App

Install the FeelConnect app on your phone and enable Bluetooth.

3. Turn it On

Press and hold the power button for 4 seconds until the light flashes blue (Bluetooth mode).

4. Connect in the App

Open the app → Tap “Connect new device” → Select your Spot 2 → Tap “Connect.”

5. Test & Customize

Tap “Test Connection” to confirm pairing, then adjust light shows and settings to your preference.

FCC ID

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED
