15. Audio Type: CV5 charging interface.
16. USB plug-in with MP3 audio class file automatically switch to USB mode.
17. Audio Type: CV5 charging interface, blue light flicker when not connected, blue light will be on when connected.
18. Microphone Type: CV charging port, blue light flicker when not connected, blue light will be on when connected, red light will be off when full.

• OUTPUT POWER: 5W

- Product name: WIRELESS KARAOKE SPAKER
- Product Model: SY13
- OUTPUT POWER: 5W
- Input Signal: 420B
- Battery: High Performance High Capaci Lithium battery
- Charging voltage: DC5V
- Frequency range: 90Hz-18KHz
- Power mode: DC charging and built-in Battery

- Sound penetration, wide coverage
- Super MP3 audio decoding technology

- High reduction electro-acoustic system
- 3.7 V high performance battery
- Sound penetration, wide coverage
- Super MP3 audio decoding technology
- All digital audio processing, clear voice
- quality, high sensitivity

2. There is no sound in the microphone.

1. If the indicator lights do not turn on, please check whether the audio power is sufficient, or to connect the audio to **TPCSV(JA-2A)** power supply for charging, charging time is about 3 to 4 hours.
2. There is no sound in the microphone. The power supply is not enough. Please try to connect the power supply and not adjusted. Please adjust the volume of the microphone.
3. If the stereo does not have reverb, the reverb switch may be off, please turn on the reverb switch.
4. If there is no sound, it may be due to ambient noise, signal interference, microphone too close to the speaker, etc., please readjust the direction of the microphone.
5. If it is not connected, it may be because the Bluetooth is too far away, or there is an obstacle between the phone and the loudspeaker, affecting the signal transmission, please close to the connected phone, avoid the signal obstruction.
6. If there is no sound, it may be because the distance is too far, there are obstacles, or by other phones connected, please close to the phone to avoid obstacles, and avoid other Bluetooth devices.
7. If you can not charge, check whether the charger is normal, audio charging, the charging port of the red light is on.

2. Man-made damage, broken, a

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
