Infrared function

When the remote control is not connected to the TV via Bluetooth, control the TV through infrared.

Bluetooth pairing operation

Turn on the Bluetooth switch on the TV, and press the back and home 2S buttons to broadcast. The LED will start flashing; After successful pairing, the LED will remain on for 2 seconds and then turn off; If unsuccessful, the LED will turn off after 1 minute.

Voice input

Bluetooth connection is normal. Open the TV network connection, long press the voice button, speak near the remote control, and then release the voice button. At this time, the TV can recognize the input command and perform related searches or operations.

FCC

(FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential

installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
