Motorcycle Mount
Charging Head

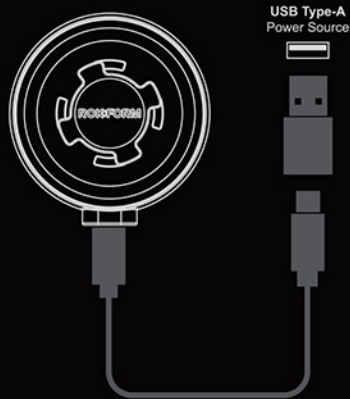

Connecting to USB Type-C Power

Connect the large end of the included USB-C charging cable to the Motorcycle Wireless Charging Head and the other end to an open USB Type-C power source.

Connecting to USB Type-A Power

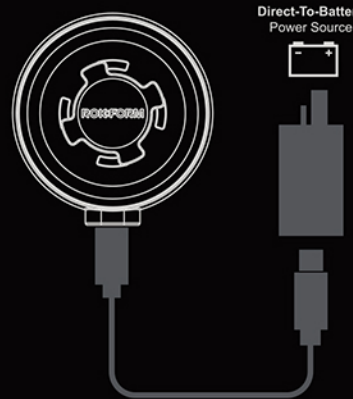

If your motorcycle is only equipped with a USB Type-A power source, use the included USB Type-C to Type-A adapter.

Charging speeds will be limited with a USB Type-A power source.

Connecting to Direct-To-Battery

If your motorcycle does not have any USB power sources, you will need to use the Rokform 12V to USB Adapter (part number 334101-AD sold separately)

Charging Precautions

- Wireless charging is more convenient but limited to current wireless charging technology. Wireless charging speed will be slower than wired charging.
- High temperatures will decrease wireless charging speed and limit power, which is a physical phenomena for all chargers.
- Both the phone case and the distance between phone and charger will affect charging speed, which is decreased by the thickness of the case.

Safety Precautions

- Do not store this product in high temperatures or a humid environment.
- The operating temperature should be between 32°F and 126°F (0°C and 52°C).
- Tampering may result in a fire or risk of personal injury.
- Do not expose this product to heat or fire.
- Do not use harmful chemicals or detergents to clean this product.
- Improper use, dropping, or excessive force cause damage to this product.

Compatible Devices
