USAGE AND MAINTENANCE OF DISC (Optional)

This unit is only applied to the following disc:

Disc Category	Disc Symbol	Disc Indexed content	Disc Size
DVD		Sound and Picture	12cm
VCD		Sound and Picture	12cm
CD		Only Sound	12cm
MP4		Sound and Picture	12cm
MP3		Only Sound	12cm

	Region Code and Video Output Format		Sound Track Quality
	Dolby Digital Stereophonic System		Subtitles
	DTS Digital Theater System		Hide Subtitles
	5.1 track audio		Angle
	Video Mode		Restricted
	Two Channels Stereo		

Features of DVD Disc

Different DVD Discs contains different feature combinations, the kind of difference is mainly caused by design coding division and manufacturer of DVD Disc, the icons above represent some features of DVD discs. Note: Certain functions of this device need to be supported by DVD disc. If the disc doesn't support these functions or a special setting is required, the functions may not be usable, please check these functions before playing the disc or follow the tips displayed on the screen. If the disc is polluted or damaged, sound skipping may occur. To optimize the sound affect, do the following:

Hold the disc by its edge to keep it clean.

Never place the disc in direct sunlight or near heat sources such as warm air pipes. Do not keep the disc in cars when the temperature is excessively high.

Avoid using discs with a label as viscose glue is left on the disc when the label is removed.

Use a soft cloth to clean the disc from the center to the edge.

Never use discs contaminated by viscose glue or ink.

FUNCTIONS AND FEATURES

Radio functions

- ♦ 30 storage radio stations (FM 3*6, AM 2*6).
- ♦ Automatic, semi-automatic and manual search, preset memory radio stations.

Aux input, output, amplifier and other functions

- ♦ AUX input * 1
- ♦ rear-view camera input * 1
- ♦ two-channes' amplifier output, which can be directly speaker.
- ♦ 2+1 channel audio output.
- ♦ 4 channels amplifier output.

TV functions (optional)

- ♦ Digital TV (DTV)

Supported media formats for DISC

- ♦ Compatible with DVD-R, DVD-RW, DVD+R, DVD+RW, CD-R, CD-RW CD-DA, MP3, WMA, SVCD, VCD and MPEG1, MPEG2, MPEG4, JPEG format discs.

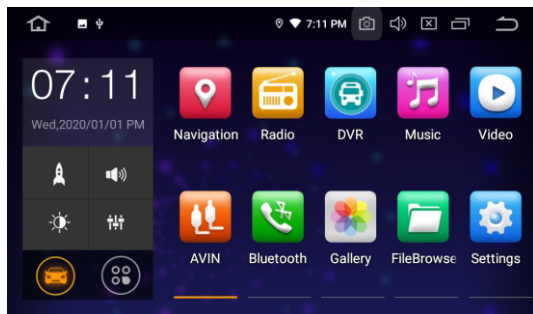

Supported media formats for USB/SD

- ♦ Compatible with Mp3, WMA, WAV, AST, AVI, MP4, MPEG1, MPEG2, MPEG4, JPEG, FLAC, RMVB format.
- ♦ Supports SD port and USB port.

- The rear view camera image is displayed with no camera connection and the wrong camera polarity setting. Install the rear view camera and then change the camera polarity settings.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
