Charging

Before using the B35 , please connect the Type-C cable to a power adapter to begin charging. Fully charge the earphones and the charging case before the first use.

Type-C Port

Power On/Off

When taken out of the charging case, the earphones will turn on and pair with each other automatically. To turn off the earphones, put them in the charging case, then the earphones will be turned off and start charging.

Pairing

The earphones will turn on when taken out of the charging case.

For new device connection, turn on the Bluetooth in your device and choose " B35 " from the Bluetooth list to connect. You will hear System prompts after the earphones are connected to the device. If the earphones have been connected before, they will connect to the last connected device automatically after being turned on.

Wearing

Put the B35 onto your ears and rotate to fit comfortably to get the best wearing and sound quality experience.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
The device has evaluated to meet general RF exposure requirement. The device can be used in portable exposure without restriction.
