V. FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause unintended operation. Any changes or modifications not explicitly approved by the party responsible for compliance could void the user's warranty.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC rules. This means that your use of this device is designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not properly used, can cause interference to radio communications. However, the use of this equipment with proper installation should not cause harmful interference. If you find that this equipment does cause harmful interference to your radio or television reception, you can try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Move the equipment into an extension cord, power strip or outlet that is remote from that which the receiver is connected.
- Consult the dealer or a qualified radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for uncontrolled environments. FCC limits are designed to prevent hazardous interference with a minimum distance of 20 cm between the radiator and your body.
