

NWITECH-BM24 Wireless Headphone-BM Series
User Manual

North-Way International Business Services Ltd.

Thank you for purchasing our products. Please read this manual carefully before using the product and keep it well for future reference.

Specification

Model: NWITECH - BM24
Name: Wireless Headphone - BM Series
Color: Black/Beige
Material: ABS+PC
BT Version: 5.3
Connection Range: ≤10m
Speaker Diameter: 40mm
Speaker Sensitivity: 108±3dB/1Khz 0.179V
Impedance: 32Ω±15%
Frequency Response: 20-20Khz
SNR: ≥80dB
Weight: about 223g
Battery Capacity: 500mAh
Playing Time: about 70 hours
Calling Time: about 60 hours
Charging Time: about 3 hours
Charging Power: 5V/0.5A
Size: 167*186*80mm
Compatibility: For digital devices with BT function

Product Structure

Notes: Pictures for reference only, product please in kind prevail.
Including: Headphone*1, Type-C Charging Cable*1, User Manual*1

IC Warning

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.
This device complies with Canadian ICES-003 and RSS-247.

ISED Canada Statement:

This device complies with RSS Gen of the Canada Rules. Operation is subject to the following two conditions:
1) this device may not cause interference and
2) this device must accept any interference, including interference that may cause undesired operation of the device.
Radiation Exposure: This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

IC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

How to Use

Function	How to Operate	LED Light	Voice Prompt
Power On	Push up the power button	Blue light flashes 3 times	Power-on
Power Off	Push down the power button	/	/
Connection	Turn on phone's Bluetooth and search for "NWITECH-BM24", and connect	Before connection, the red and blue lights flash alternately; after connection, the blue light flashes once every 5s	Connected
Answer/ Hang up calls	Press multi-function button once	/	/
Reject	Long press multi-function button	/	/
Play/ Pause Music	Press multi-function button once	/	/
Previous Song	Long press the volume - button	/	/
Next Song	Long press the volume + button	/	/
Volume +	Press volume +	/	/
Volume -	Press volume -	/	/
Wake up Siri	Long press multi-function button	/	/
Charging	Charging for the product with Type-C cable	Red light is always on; when fully charged, red light goes off	/

AUX Audio Cable Listening

Plug one end of the AUX audio cable into the device (phone/computer/ tablet/MP3, etc.) and the other end into the headphone's 3.5mm audio jack to play audio.
* If AUX audio cable is detected, preferred AUX mode playback.
* In AUX mode, the headphone's buttons don't have control function, only can be operated by the device.

Attention (typical but not complete)

- The headphones should be stored in a clean, dry and ventilated room with ambient temperature of -0 ° C to 45° C and relative humidity less than 70%. Avoid contact with corrosive substances and keep away from fire and heat sources.
- It is recommended to charge the headphones every three months during storage.
- The headphones should be protected from severe vibration, shock or squeeze during transportation and away from sun and rain. It can be transported by vehicles, trains, ships, airplanes, etc.
- Do not disassemble, open, chop or pierce the headphones with metal.
- Please dispose the abandoned headphones according to national environmental regulations.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1)This device may not cause harmful interference.
(2)This device must accept any interference received, including interference that may cause undesired operation.

Avertissement IC

Cet appareil est conforme aux normes RSS sans licence d'Industrie Canada. L'opération est soumise aux deux conditions suivantes: (1) cet appareil ne doit pas causer d'interférences, et (2) cet appareil doit accepter toute interférence, y compris celle susceptible de provoquer un fonctionnement indésirable de l'appareil.
dispositif.
Selon la réglementation d 'Industrie Canada, cet émetteur radio ne peut fonctionner qu 'en utilisant une antenne type et gain maximum (ou inférieur) approuvés pour Industrie Canada par l'émetteur. Réduire brouillage radioélectrique potentiel avec d'autres utilisateurs, le type d'antenne et son gain doivent être choisis que la puissance isotrope rayonnée équivalente (e.i.r.p.) n'est pas supérieure à celle nécessaire pour communication réussie.
Cet appareil est conforme aux normes canadiennes ICES-003 et RSS-247.

Déclaration d'ISED Canada:

Cet appareil est conforme aux règles RSS Gén du Canada. Le fonctionnement est soumis aux deux suivants conditions:
1) cet appareil ne doit pas causer d'interférences et
2) cet appareil doit accepter toutes les interférences, y compris celles pouvant causer des effets indésirables fonctionnement de l'appareil.
Exposition aux radiations: Cet équipement est conforme à la réglementation canadienne sur les radiations. limites d'exposition établies pour un environnement non contrôlé.

Déclaration d'exposition aux radiations IC

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé sans restriction dans des conditions d'exposition portables.
