

User Manual

Thank you for choosing our Magnetic wireless Power Bank
Please read over carefully and keep this manual for your
records

1. Connecting the USB-C interface of the Magnetic wireless Power Bank to the power adapter
2. The Battery indicator glow white in charging mode

 For a better charging experience, please use a power adapter above 20W

 For a more accurate display of the power level, it is recommended to perform two charge/discharge cycles

put the device on the middle of the phone back, it can be adsorbed automatically and charging the phone at the same time. When using wireless charging, the wireless charging indicator is always on: after disconnecting from the phone, the wireless charging indicator flashes slowly for 10 seconds and then turns off: when the wireless charging area touches a metal foreign object, the wireless charging indicator flashes quickly.

Use the charging cable to connect the magnetic wireless power bank and your phone

The magnetic function is only used to adjust the charging position of the phone.

Devices built-in wireless charging receiver and support fast wireless charging
(Galaxy S9 Plus/S10/S10 Plus/Note 10/Note 10 Plus, Huawei P30 Pro/Mate30/Mate30 Pro/P40 Pro stand charger for Iphone XS Max/Xr/11/11 Pro/11 Pro Max and all Qi-enabled devices)

⚠ Magnetic charging equipment
Iphone 12/13/14/15 series and above models

Model No.:	L-WP-10L6
Capacity:	10000mAh/3.85V/38.5Wh
Rated Capacity:	6000mAh(5V = 2A)
Type-C Input:	5V = 3A, 9V = 2.22A
Type-C Output:	5V = 2A, 9V = 2.22A
Wireless Output:	15W Max
Total Output:	5V = 3A
Transmission distance:	≤3-6mm
Charging efficiency:	≥75%
Size:	102×70×14.3mm
Unit weight:	≈188G (NW)
FCC ID: 2BG9U-B5L6	
IC: 29971-B5L6

FCC Warning Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

ISED Canada Statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

IC Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Déclaration d'ISED Canada:
Cet appareil contient des émetteurs/récepteurs exempts de licence de licence qui sont conformes aux RSS exempts de licence d'innovation, sciences et développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

- (1) ce dispositif ne peut pas causer d'interférence.
- (2) ce dispositif doit accepter toute interférence, y compris l'interférence qui peut causer un fonctionnement indésirable du dispositif.

Déclaration d'exposition aux radiations IC
L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé sans restriction dans des conditions d'exposition portables.

CAUTION: Risk of Fire and Burns.
Do Not Open, Crush, Heat Above(25°C) or Incinerate.
Follow Manufacturer's Instructions.

Ne pas ouvrir, écraser, chauffer au-dessus (25°C) ou incinérer.
Suivez les Instructions du fabricant.

INSTRUCTIONS PERTAINING TO RISK OF FIRE OR INJURY TO PERSONS IMPORTANT SAFETY INSTRUCTIONS

WARNING – When using this product, basic precautions should always be followed, including the following:

- a) Read all the instructions before using the product.
- b) To reduce the risk of injury, close supervision is necessary when the product is used near children.
- c) Do not put fingers or hands into the product.
- d) Do not expose power bank to rain or snow.
- e) Use of a power supply or charger not recommended or sold by power pack manufacturer may result in a risk of fire or injury to persons.
- f) Do not use the power bank in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury to persons.
- g) Do not use the power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
- h) Do not disassemble the power bank. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury to persons.
- i) Do not expose a power pack to fire or excessive temperature. Exposure to fire or temperature above 100 °C may cause explosion. The temperature of 100 °C can be replaced by the temperature of 212 ° F.
- j) Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
- k) Switch off the power bank when not in use.
