RECHARGEABLE 2.4G+BT4.0/5.1 WIRELESS MOUSE

GW-X7

INSTRUCTION MANUAL
PLEASE READ ALL INSTRUCTIONS CAREFULLY
AND RETAIN FOR FUTURE USE

Getting Started

- Remove the product from the box.
- Please retain all packaging until you have checked and counted all the parts and the contents against the parts list.

Package Contents

- Rechargeable Wireless Mouse X1
- Nano receiver X1
- Type-C charging cable X 1
- Instruction Manual

Mouse Features

- Wireless mouse with double click button
- 2.4GHz+ BT 4.0/5.1 wireless mouse
- 7-color luminous effect
- Ergonomic Design
- 800-1200-2400-3200DPI adjustable
- Wireless design with USB nano receiver
- Built-in Rechargeable battery

Mouse Specifications

- Size: L130xW88xH40mm
- Weight: 104 ±5g
- Connection: 2.4GHz + BT4.0/5.1
- Voltage: 3.7V ±5%
- Current: ≤20 mA
- Wireless distance: 10 meters
- Resolution: 800/1200/2400/3200DPI
- Quantity of buttons: 7 buttons
- Button lifespan: > 3 million times

Buttons' Function

Connect Instruction

USB 2.4G connection

- **Step 1:** Plug the receiver into your computer's USB port.
- **Step 2:** Push the power switch (11) at the bottom of the mouse to the "ON" and switch the button to 2.4G mode, the corresponding light is flashing red, and then the red light off after connecting the device, enter the normal mode.
- **Step 3:** Move the mouse or press the left/right button to use it normally.

Bluetooth connection

- **Step 1:** Push the power switch (11) at the bottom of the mouse to "ON" click the mouse three modes button, the blue/green lights corresponding to the BT1/BT2 mode flashes, and start to enter the code mode.
- **Step 2:** Open the tablet/computer/phone, click the "Bluetooth" interface in the settings menu, connect the pairing mouse (iMICE GW-X7 4.0/iMICE GW-X7 5.1). After the device is connected, the blue/green light goes off, enter normal mode.
- **Step 3:** Move the mouse or press the left/right button to use it normally.

A. How to change connecting modes

Short press to change the connecting mode
Mode BT1 - Blue light
Mode BT2 - Green light
Mode 2.4G - Red light

B. How to pairing the mouse

- **Under Mode BT1**
Long press (more than 3 sec.), blue light flashing to start BT1 pairing (iMICE GW-X7 4.0).
- **Under Mode BT2**
Long press (more than 3 sec.), green light flashing to start BT2 pairing (iMICE GW-X7 5.1).

Charging Method

- It is recommended to use the USB interface of the computer to charge the mouse. When the mouse is charging, the battery red light (12) will light up, when charging finish, the light near the scroll will extinguish.
- If the battery power is low, the corresponding mode indicator (green/blue/red) will keep slow flash.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
