Smart Ceiling Light

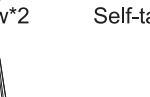

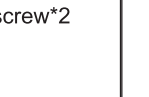

Android / iOS
(Scan QR code to download our Cincoton APP)
cincoton.services@gmail.com

To comply with FCC RF exposure guidelines this equipment should be installed in accordance with a minimum distance of 20cm between the radiator and your body. Use the supplied antenna only.

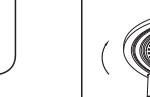

What's in the Box

Smart ceiling light*1

Screw*2

Wiring cap*3

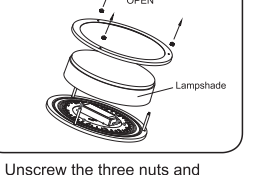

Self-tapping screw*2

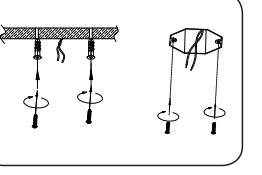

Plastic expansion rail*2

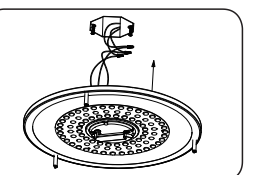

Specifications

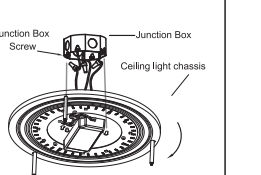

Model	STR-CL-001
Wattage	40W
Input Voltage	AC120V 60Hz
CCT	2700 ~ 6500K+RGB
CRI	80

Installation

1. Unscrew the three rails and remove the light cover.

2. Screw the screws into the position (one with 20 mm and 10 mm).

3. Connect the three metal lines (black, L, white, N, green, G) ground it with a screwdriver to make it a perfect line again.

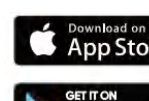

4. After the installation is complete, please use the three ends of the wiring cap, and tighten the cap.

How to use Smart Ceiling light

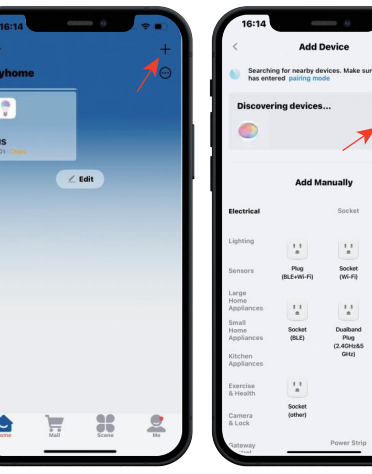

1. Download the Cincoton App
You can download the Cincoton app from the App Store for iOS or Google Play for Android. Alternatively, scan the QR code below for a direct link.

2. Create an Account & Log In
Open the Cincoton app and create an account. Once done, log in with your credentials.

3. Add Your Smart Ceiling Light in the App
Ensure that Wi-Fi and Bluetooth are enabled on your smartphone or tablet.
Important for Android Users: The app may request Location Permission. This is required for Android to allow Bluetooth and Wi-Fi scanning, which is necessary for device setup. Please grant this permission for a successful connection.
Make sure your phone is connected to a 2.4 GHz Wi-Fi network during setup.

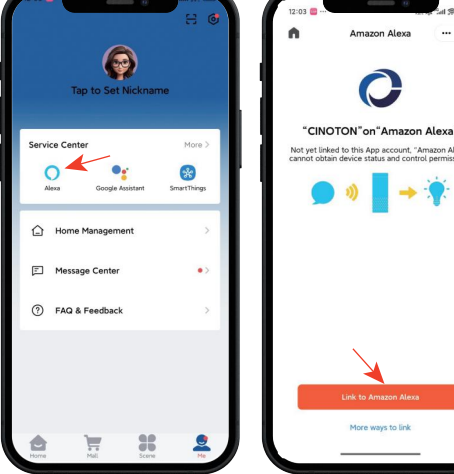

1. Power on the smart ceiling light.
2. To enter pairing mode (indicated by a blinking light), choose one of the following methods:
Method - Power Cycling
1) Turn the smart ceiling light OFF, wait for 2 seconds.
2) Turn it ON for 1 second.
3) Turn it OFF again for 2 seconds.
4) Finally, turn it ON again.
5) On the app, tap the "+" or "Add Device" button to start Bluetooth pairing. The app will discover the smart ceiling light. Follow the prompts to add it.
5.B. If needed, you can also add the smart ceiling light manually by following the instructions in the app.

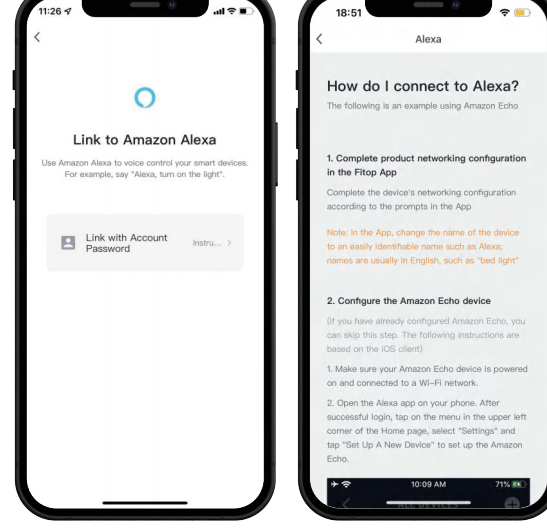

How to connect Smart Ceiling Light to Alexa

1. Quick Connect: Open the CINCOTON app, then go to Me > ThirdParty Voice Services > Alexa > Sign in with Amazon. Follow the on-screen prompts to complete the connection.
2. Detailed Guide: If you need help, navigate to Me > ThirdParty Voice Services > Alexa > View more ways to link.

3. Start Linking: On the detailed guide page, tap "Link with Account Password".
4. Complete Setup: Follow the in-app instructions to finish the connection.

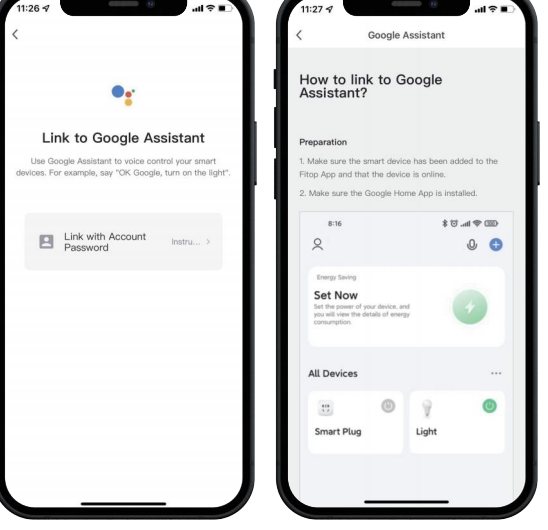

How to connect Smart Ceiling light to Google Assistant

1. Quick Connect: Open the CINCOTON app and go to Me > ThirdParty Voice Services > Google Assistant > Link with Google Assistant. Follow the prompts to connect your smart ceiling light.
2. Detailed Guide: If you need help, navigate to Me > ThirdParty Voice Services > Google Assistant > View more ways to link.

3. Start Linking: On the detailed guide page, tap "Link with Account Password".
4. Complete Setup: Follow the in-app instructions to finish the connection.

Q&A

Q1: What should I do if I cannot connect the smart ceiling light?
Please check the following items in a logical order:
1. Check Device Status: Make sure the smart ceiling light is powered on and blinking when you try setting it to the app.
2. Network Support: Confirm that your Wi-Fi network is on the 2.4 GHz band, as this is the only band the smart ceiling light supports.
3. Credentials & Connectivity: When adding the device in the app, make sure the Wi-Fi password entered is correct, and ensure your Wi-Fi has access to the Internet.
4. Phone Connection: Check that your phone is connected to the same Wi-Fi network that you are trying to connect the smart ceiling light to.
5. Signal & Location: Make sure the smart ceiling light is within range of your Wi-Fi router and not placed inside a metal container, as this can block the signal.
Q2: How do I reset the smart ceiling light?
The method depends on your situation:
Situation 1: You cannot connect to the device, or you want to change its Wi-Fi network.
1. Using the remote control: Turn the light ON, then OFF for 2 seconds, ON for 1 second, OFF for 2 seconds, and finally ON again.
Situation 2: The device will be removed from your app.
1. Using the remote control: Turn the light ON, then OFF for 2 seconds, ON for 1 second, OFF for 2 seconds, and finally ON again.

Warning

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) The device may not cause harmful interference, and (2) the device must accept any interference received, including interference that may cause undesired operation.
FCC Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Warning

1. The smart ceiling light is limited to indoor use only, do not use outdoors and high temperature environments.
2. Do not touch the product when it is working due to independent high temperature.
3. Do not use this product in the confined space of metal tanks. Otherwise it can not be connected.
