Button 12: Night light mode;

Button 13: Color static cycle switching (red, yellow, green, blue, purple, white);

Button 14: Color dynamic cycle switching;

3. Works with Amazon Alexa

3.1. Configure Amazon Echo and enable Smart Life skill

Download the Alexa mobile App:

Log in to the App Store with Apple ID registered in the United States, and search and download Amazon Alexa for iOS.

Go to Google Play, and search and download Amazon Alexa for Android.

This section describes how to configure Amazon Echo in the Alexa mobile app. The configuration procedure is similar for the Alexa web application.

3.2. Configure Amazon Echo in Alexa mobile app

Prerequisites:

The Echo is powered on.

The Echo is connected to a Wi-Fi network over which Amazon services are accessible.

Procedure:

1. Open the Amazon Alexa app.
2. Enter the Amazon account and password, and tap SIGN IN.

The screenshot shows the Amazon Alexa mobile app's sign-in interface. At the top is the Amazon Alexa logo. Below it is the 'Sign in' heading with a 'Forgot password?' link. There are two input fields: 'Email (phone for mobile accounts)' and 'Amazon password'. Below the password field is a 'Show password' checkbox with a small circular icon. A large blue 'SIGN IN' button is positioned below the inputs. At the bottom, there is a 'New to Amazon?' link and a 'CREATE A NEW AMAZON ACCOUNT' button. The footer contains the copyright text: '© 1999-2019 Amazon.com, Inc. or its affiliates'.

3. After successful login, in the bottom right corner of the **Home** page, tap **More > Add a Device**, and on the **SETUP** page that appears, select the **Amazon Echo** brand.

4. Select your Echo device type and tap **CONTINUE** to configureEcho.

5. When the page **Wait for the orange light** appears, press and hold the action button until the light ring turns orange. Tap **CONTINUE** to connect the mobile phone to the hotspot of the Echo, and tap **CONTINUE**.

6. Select a **Wi-Fi** network to which the **Echo** will be connected. Enter the **Wi-Fi** password and tap **CONNECT**. It takes several minutes for the **Echo** to successfully connect to the **Wi-Fi network**.

7. Then, tap **CONTINUE**. A video walkthrough appears to help get you started. At the end of the video, tap **NEXT** to navigate to the Home page of **Alexa**. Now, the Echo is configured.

3.3. Bind Smart Life app with Alexa

Method 1: Use Smart Life app to start binding

Method 2: Use Alexa app to start binding

3.4. Use Echo to control smart device

The Echo needs to discover a device before it can control the device. The device discovery page automatically appears after the Smart Life skill is bound. Tap **DISCOVER DEVICES** to search for devices. You can also say to the Echo: "Alexa, discover devices." Then, the Echo starts searching for smart devices that are paired with the Smart Life app. The Echo reports the search result about 20 seconds later and the Alexa app displays the discovered devices in a list.

NOTE:

You can use the DISCOVER DEVICES feature to discover only the devices that have been added to the Smart Life app. Other unpaired devices cannot be discovered and added to the Echo.

If a device is renamed in the Smart Life app, the Echo must discover the device again. Otherwise, it cannot control the device.

3.5. Use voice commands to control device

Now, you can use the following commands to control a device, such as a bedroom light:

Alexa, turn on/off Fan light. (turn on or off the device) percent. (set the brightness)

Alexa, brighten/dim Fan light. (increase or decrease the brightness)

Alexa, set Fan light to red /green/blue. (set the color)

Alexa, set Fan light to warm white. (set the color temperature)

Alexa, turn on/off Fan. (turn on/off the fan)

4. Works with Amazon Google Home

4.1. Download Google Home app

Log in to the App Store with Apple ID registered in the United States, and search and download Google Home for iOS.

Go to Google Play, and search and download Google Home for Android.

4.2. Link account of Smart Life app

Method 1: Use Google Home app to start linking

1. Open the Google Home app and tap + in the top left corner of the homepage.
2. Select **Set up device > Works with Google**.
3. Tap the Search icon in the top right corner of the page, and search by Smart Life app name.
4. Tap the searched result and then **Continue**. The Google Home app will wake up the Smart Life app. Tap **Agree and link** and wait to the end of loading. This way, the Smart Life app is linked with the Google Assistant.

Method 2: Use Smart Life app to start linking

If the mobile phone has the Google Home app installed, open the Smart Life app and tap **Me** on the tab bar.

In the **Third-Party Voice Services** section, select **Google Assistant > Link with Google Assistant** to wake up the Google Home app.

Tap **Continue** to return to the Smart Life app.

Tap **Agree and link** to access the Google Home app. This way, the Smart Life app is linked with the Google Assistant.

4.3. Use Google Home to control smart devices

Now, users can speak the following voice commands and control your smart devices from Google Home. For example, for a bedroom light, Google Home currently supports the following commands in English only:

Ok Google, turn on Fan light.

Ok Google, turn off Fan light.

Ok Google, set Fan light to 50 percent. (set the brightness of the light)

Ok Google, brighten Fan light.

Ok Google, turn on/off Fan. (turn on/off Fan)

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two

conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
