Material	Metal+PC
Working Voltage	AC100-240V
HZ	50/60HZ
Wattage	24W
CCT	2700-6500K
Switch	Touch switch+Remote control

Install

Remote Controller Instructions

Tips

The remote control has been paired with the lamp before leaving the factory.
If it fails to operate the lamp, please follow the steps below to re-pair it.
1. Plug and unplug the DC connector on the adapter five times in succession. When the light flashes, it indicates that the lamp is ready for pairing.
2. Press and hold the On/Off button on the remote control for 5 seconds. When the light flashes once, pairing is successful.

Warranty

1) This product is covered by a 12-month limited warranty from the date of purchase. Please keep your sales receipt as proof of purchase.
2) This warranty does not cover damage resulting from:
- Improper use, unauthorized repair, or modification.
- Accidental damage such as drops.
- Fire, earthquake, flood, lightning, or other natural disasters.
- Use for purposes other than the intended one.
3) For warranty service or customer support, please contact us:

Warning:
Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
FCC Statement:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
RF exposure compliance statement:
This device has been evaluated to meet the general RF exposure requirement
