

Appendix D

1. Test Sample

2. Test positions

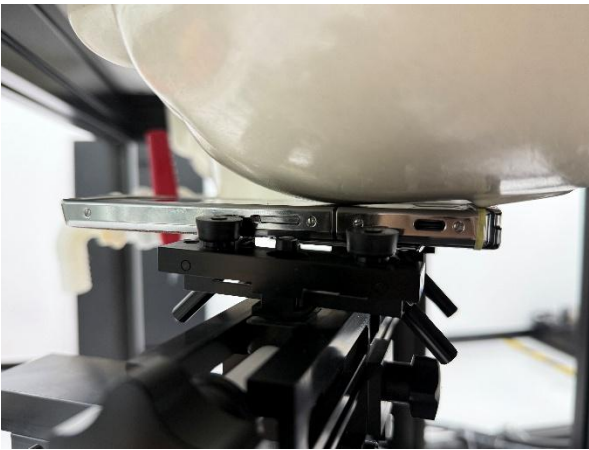

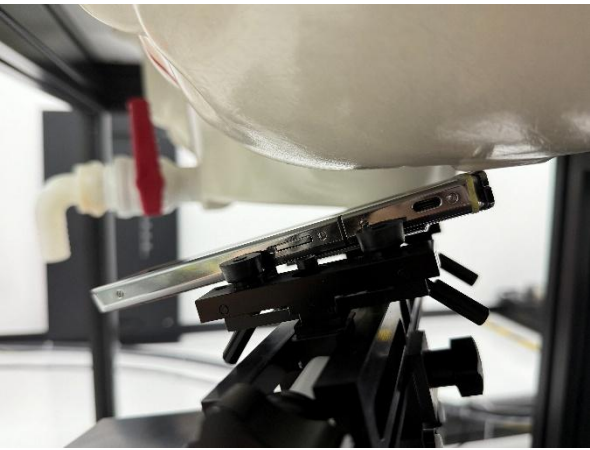

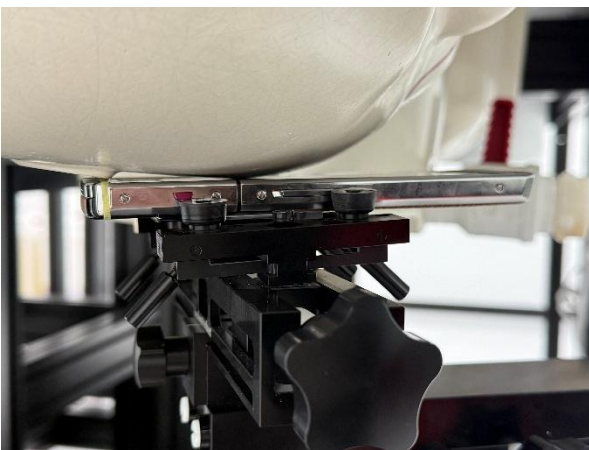

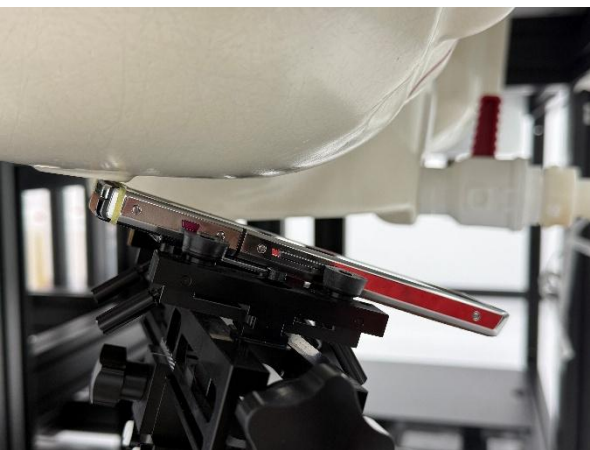

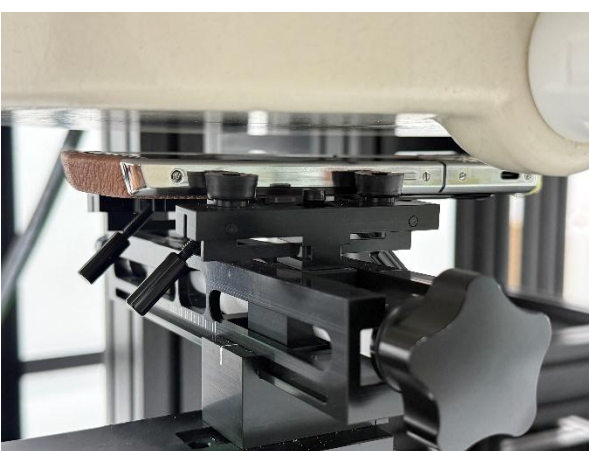

Photo 4: Left cheek	Photo 5: Left tilted
 A close-up photograph showing a white, dome-shaped object (likely a head form) positioned on a black mechanical test rig. The rig features a horizontal metal plate with a small red component attached to its underside. The background is a blurred laboratory setting.	 A close-up photograph showing the same white dome-shaped object on the test rig, but tilted at an angle. The red component is more visible, and the perspective of the rig's structure is different.
Photo 6: Right cheek	Photo 7: Right tilted
 A close-up photograph showing the white dome-shaped object on the test rig, positioned for a right cheek test. The red component is visible on the underside of the horizontal plate.	 A close-up photograph showing the white dome-shaped object on the test rig, tilted for a right cheek test. The red component is clearly visible on the underside of the plate.
Photo 8: Front side 10mm	Photo 9: Back side 10mm
 A close-up photograph showing the white dome-shaped object on the test rig, positioned for a front side 10mm test. The red component is visible on the underside of the horizontal plate.	 A close-up photograph showing the white dome-shaped object on the test rig, positioned for a back side 10mm test. The red component is visible on the underside of the horizontal plate.

Photo 10: Left side 10mm

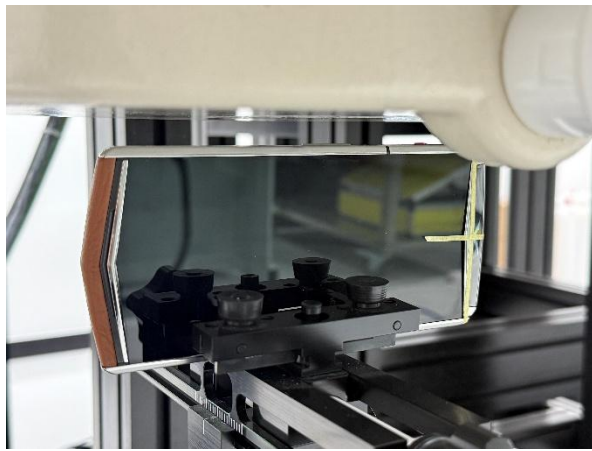

Photo 11: Right side 10mm

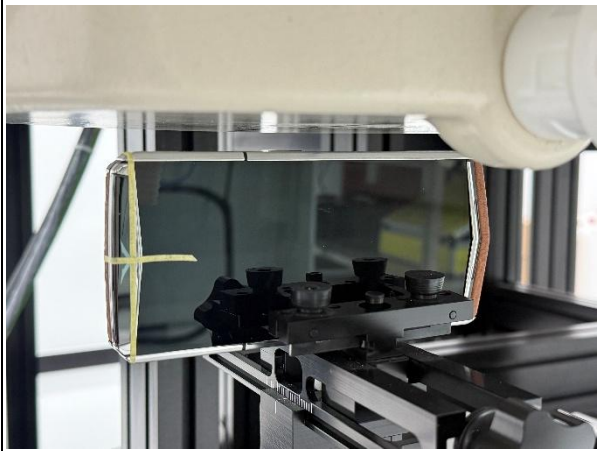

Photo 12: Top side 10mm

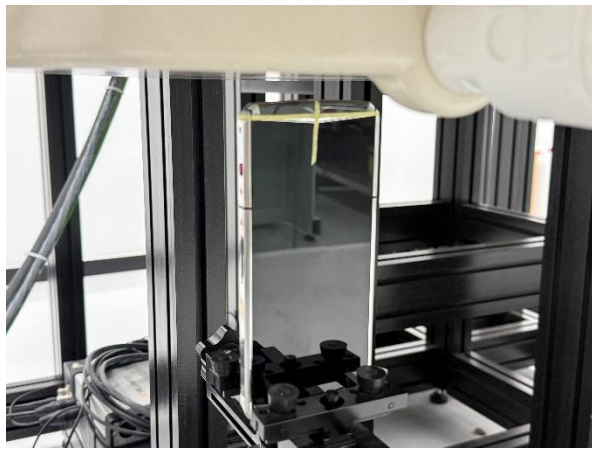

Photo 13: Bottom side 10mm

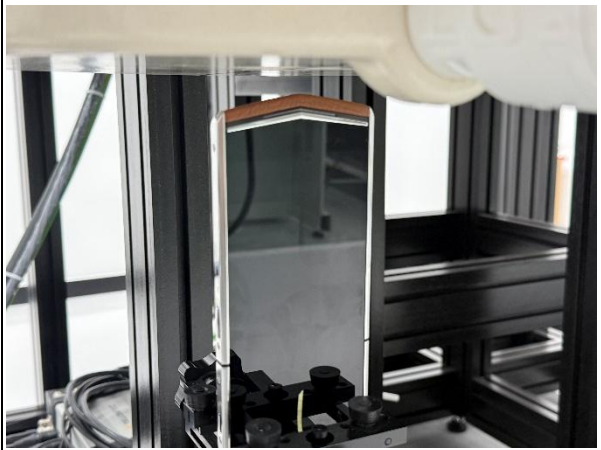

Photo 14: Front side 0mm

Photo 15: Back side 0mm

Photo 16: Left side 0mm

Photo 17: Right side 0mm

Photo 18: Top side 0mm

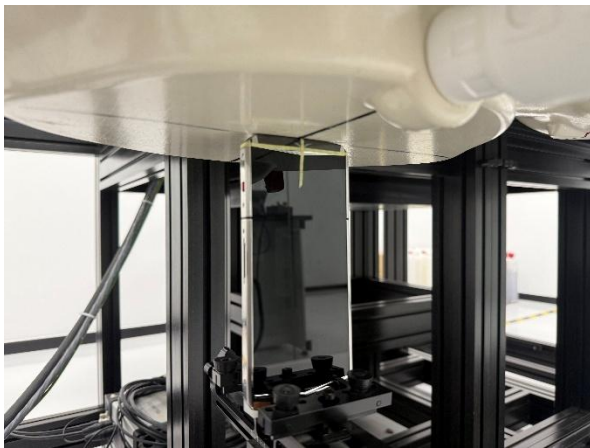

Photo 19: Bottom side 0mm
