

9. SAFETY GUIDELINES

- Thank you for choosing VESTA SENSOL. Proper use of our products will provide you with a safer experience. To protect yourself and your family during exercise, please read this manual carefully and strictly follow the mentioned precautions before use.
- The maximum weight supported by this product is 150kg.
- Before using this equipment, please wear appropriate sports shoes and clothing, and perform proper warm-up exercises.
- If you feel any discomfort or encounter any abnormal physical conditions during use, please stop exercising immediately and consult a doctor.
- Do not consume alcoholic beverages or any stimulants prohibited by national laws and regulations before and after use.
- Fatigue, improper use, and over-exercising may lead to injuries. You should accurately assess your physical condition and endurance, and ensure the appropriateness of exercise movements, intensity, and duration.
- During training, keep children and pets away from the machine to avoid accidents.
- This product is not suitable for the following individuals:
- Those who have undergone surgery in the past six months, individuals with heart disease, hypertension, asthma, or other conditions that prevent vigorous exercise, and those advised by a doctor to avoid vigorous exercise should not use this product to avoid accidents or discomfort.
- Individuals over 65 years old, those trying to conceive, pregnant women, children, and nursing mothers should not use this product.
- Minors must use this equipment under the supervision and guidance of a guardian and should not use it alone.

10. WARRANTY AND AFTER-SALES SERVICE

Thank you for purchasing and using our company's series of soft exercise machines. According to regulations, from the date of purchase (calculated from the date the user signs for it), quality issues can enjoy a one-year free warranty service with valid receipts, as follows:

To implement free warranty service, the following conditions must be met:

- ① Non-human damage occurring during normal use under proper maintenance.
- ② The warranty card is only for the original purchaser and is non-transferable.
- ③ If non-human issues arise within two weeks or machine failures occur within one month, a free replacement can be provided.
- ④ Enjoy a one-year warranty period for the entire machine under normal usage from the date of purchase.

 **Note!!** After unpacking, keep the packaging box for more than 30 days for easy return or repair.

The following situations are not covered by the warranty (paid warranty services can be provided):

- ① All human damage occurring during use, including incorrect power usage, not following the manual for use and storage, incorrect operation, poor transportation, etc., leading to failures.
- ② Unauthorized repairs, misuse, collisions, negligence, abuse, liquid ingress, accidents, modifications, incorrect use of non-product accessories, or tearing, altering labels, and anti-counterfeiting marks.
- ③ Failures caused by force majeure factors (such as floods, fires, lightning, and other natural disasters).
- ④ Damage to consumables or accessories.
- ⑤ Exceeding the warranty period or failing to present the product warranty card.
- ⑥ Other violations and resulting damages.

Other Notes:

- ① If the inspected product does not meet the conditions for free repair, the customer may choose to pay for repairs.
- ② If the machine's issues are not covered by the warranty (such as damage caused by human factors), we will charge corresponding inspection fees, replacement parts fees, testing fees, labor fees, and transportation fees based on the specific issues.

FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be located or operating in conjunction with any other antenna or transmitter.

ISED RSS Warning:

This device complies with Innovation, Science and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ISED RF exposure statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

Le matériel est conforme aux limites de dose d'exposition aux rayonnements énoncés pour un autre environnement. Ce dispositif a été évalué à satisfaire l'exigence générale de l'exposition aux rf.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
