BubblePal

USER GUIDE

WELCOME !!
to the wondrous world
of Haivivi.

BubblePal can't wait to meet you!

Follow this magical bubble and embark on a
journey filled with joy and surprises!

Scan the QR code with your mobile phone to
download the HAIVIVI PAL App and start chatting
with me following its instructions.

The conversation is entirely created by AI. Although fictional, it
is full of fun and imagination.

WARNING & CAUTIONS

Children under the age of 3 should not use this product
unsupervised.

Do not use, store, or charge the product in direct sunlight,
near heat sources, or in high-temperature environments.
Instead, keep the product in a cool, dry place.

This product is not waterproof; do not wash it with water or
immerse it in water.

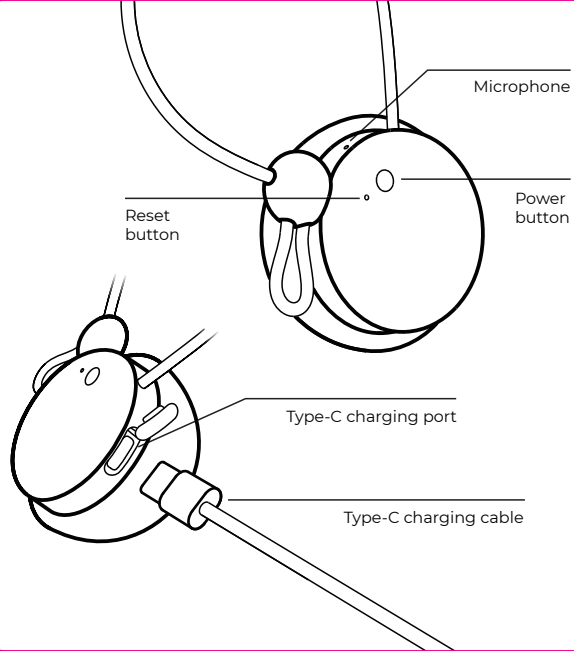

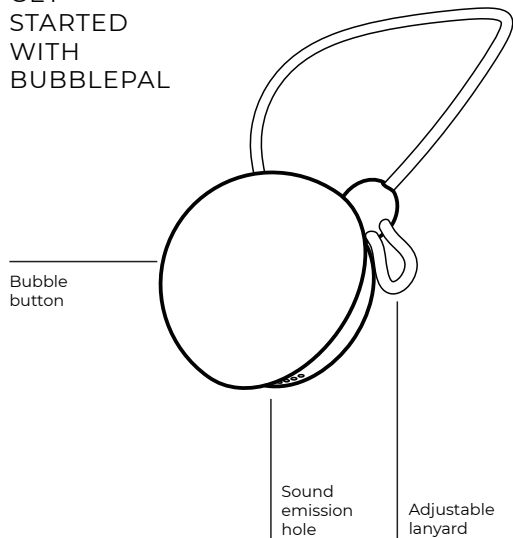

The product contains a pure cobalt battery. Please keep it
away from fire or heat sources.

Please dispose of the product's packaging properly to
prevent infants and toddlers from accessing it and
potentially suffocating.

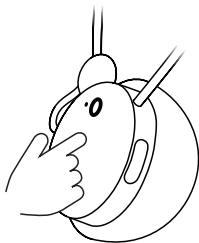

Please read this entire document before you begin and keep it for
future reference.

GET STARTED WITH BUBBLEPAL

1 Power on

Press and hold the "Power Button" on the back of the device for 3 seconds while it is turned off. The device is successfully powered on when the bubble light turns on.

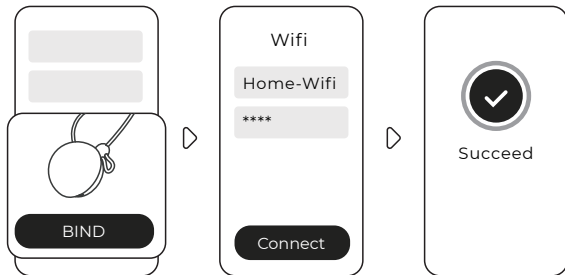

2 Download the App

Scan the QR code or use the Mobile App Store to search for and download the HAIVIVI PAL App.

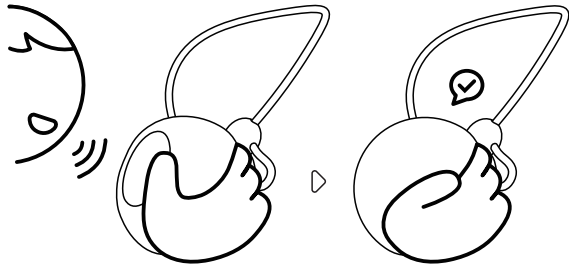

3 Connect to the Device

Follow the instructions to connect to the BubblePal.

4 Start the Conversation!

Attach BubblePal to the designated toy and press, hold the bubble button to start talking; release to send the message.

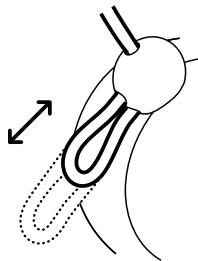

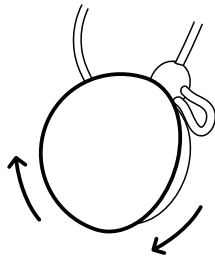

Hold to Talk

Release to Send

Volume Adjustment

Rotate the dial to adjust the volume. Turn clockwise to increase the volume and counterclockwise to decrease it.

Lanyard Length Adjustment

Adjust the length of the lanyard by pulling it up or down to accommodate toy of different sizes.

CHARGING & BATTERY

Connect the charging cable to the charging port of this product and use it with a regular charger marked with a 5V=1A rating and compliant with the national CCC certification (to be purchased separately) to charge this product.

The product cannot be turned on when the battery is low. It can be turned on once the charging is complete.

It takes approximately 120 minutes* to fully charge the battery.

Caution

- The BubblePal contains a pure cobalt battery. Keep it away from fire.
- Do not charge for more than 6 hours continuously. Ensure supervision during charging and avoid charging when leaving for extended periods.
- Regularly inspect the charging cable for abnormalities. Stop use immediately if any are found to prevent electric shock, short-circuiting, or fire.

- Avoid using, storing, or charging BubblePal in direct sunlight, near heat sources, or in high-temperature environments. Keep it in a cool, dry place.

* Note: Charging time may vary depending on the charger and the device's battery level.

* The 120-minute full charge time is based on HAIVIVI laboratory data and may vary due to various factors.

SAFETY INSTRUCTIONS

- Adult supervision and guidance are required when children use BubblePal.
- Before use, check for any damage, ensure proper installation, and verify normal operation. Contact after-sales service for any issues.
- Avoid colliding, impacting, compressing, or puncturing the BubblePal.
- Do not disassemble, repair, or modify BubblePal yourself.
- Do not use BubblePal or its accessories if damaged or broken.
- Do not charge for more than 6 hours continuously. Ensure supervision during charging and avoid charging when leaving for extended periods.
- Regularly inspect the charging cable. Stop use immediately if any abnormalities are found to prevent electric shock, short-circuiting, or fire.
- Do not clean the BubblePal while it is turned on or charging.
- Do not clean with saltwater, hot water, compressed air, steel wool, abrasive cleaners, or corrosive liquids (e.g., gasoline or acetone).

CLEANING

- Turn off the BubblePal before cleaning. For routine cleaning, use a soft cloth dampened with tap water to clean the device's body. After cleaning, thoroughly dry the device.
- Do not clean the BubblePal while it is turned on or charging.
- Do not clean with saltwater, hot water, compressed air, steel wool, abrasive cleaners, or corrosive liquids (e.g., gasoline or acetone).

ENVIRONMENTAL CARE

When disposing of the BubblePal, do not mix it with general household waste. Instead, bring it to a government-designated recycling center to help protect the environment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
