It effortlessly locates keys, wallets and more using Apple Find My Network, prioritizing security. Designed for user convenience, Vision tag simplifies daily life. Say good-bye to lost items with Vision tag and Apple Find My Network, experiencing a future of enhanced item finding and peace of mind. Trust Vision tag to redefine how you manage essentials effortlessly. How To Pair Note: iOS or macOS with the latest version. (Figure1) (Figure2) (Figure3) 1.1 Place the Vision tag next to your Apple device like iPhone. 1.2 Turn on Bluetooth on iPhone and connect to Internet. 1.3 Press the finder front. button hear one beep to power on.	1.4 Open the 'Find My' app. 1.5 In 'Find My' app, Tap "+", then 'Add Other Item'. As shown in Figure 1. 1.6 Once your Vision tag is located, tap 'Connect'. As shown in Figure 2. 1.7 Enter a name and choose an emoji for your Vision tag and tap 'Continue'. As shown in Figure 3. 1.8 Find My will ask for confirmation to add your Vision tag to your Apple ID. Tap 'Agree'. 1.9 Tap 'Finish' and your Vision tag will be set up and ready to be used. Battery replacement Vision tag Contains a coin shaped battery. During the product's lifespan, it may be necessary to replace the battery. By observing the correct negative and positive connections, only replace batteries of the same type (CR2032) and rating. Important matters Vision tag contains delicate electronic parts, including a battery to avoid damage, loss of function, or potential harm. Please refrain from dropping, hitting, puncturing, crushing, disassembling, exposing it to extreme heat or liquids, or placing it in areas with a high concentration of industrial chemicals.	3.2 To switch from disable mode (airplane mode) to working mode, reinsert the battery any Vision tag will be successfully paired after this. 3.3 Press and hold the button until you hear 1 prompt tone, followed by 2 consecutive prompt tones, and then 3 consecutive indicator tones. Continue to press for 5 seconds. When you hear a long indicator tone, release the button to restore the device to its factory settings. 3.4 To remove the Vision tag from your Apple devices, open the 'Find My' app, select 'Items', find the device, and scroll down to click on 'Remove this device'. 3.5 If the Vision tag fails to connect to the 'Find My' app, follow the instructions in section 3.3 to perform a factory reset, and then restart the pairing process.	WARNING: Do not swallow the battery; There is a chemical burn hazard. Choking Hazard Warning Vision tag, its battery compartment door, the battery itself, And the case may pose a choking hazard or cause injury to small children. Please keep these items out of reach of young children. Medical Device Interference Vision tag contains components and radials that emit electromagnetic fields, as well as magnets. These elements may potentially interfere with pacemakers, defibrillators, or other medical devices. To ensure safety, maintain a safe distance between your medical device and Vision tag. We strongly advise consulting your physician and the manufacturer of your medical device for information that is specific to your situation. If you suspect that Vision tag is interfering with your pacemaker defibrillator or any other medical device, discontinue its use immediately. Important Handling Guidelines Be normal for Vision tag to show discoloration with regular use. To clean it, use a soft, dry, lint-free cloth. Avoid applying	pressure with sharp objects on the rubber seal or the battery terminal contacts inside the device. Do not allow moisture to enter any openings or use aerosol sprays, solvents or abrasive materials to clean the device. FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
