Home Security User Manual

Introduction

Welcome to the InstaVision Camera App. This manual will guide you through the various features of the app to ensure you get the most out of your security camera.

Installation and Setup

- 1. Download and Install:** Download and install the InstaVision app by scanning the QR code for the Apple Store or Google Play Store.

iPhone

Android

2. Account Registration: Open the app and register a new account or log in to an existing account.

3. **Add Camera:** Navigate to the Home Page within the app. Locate and select "Add Camera" then go through preparation instructions to power on your camera properly.

4. **Bluetooth Access:** Follow the on-screen instructions to enable Bluetooth access, which is required for device discovery. Do not skip this step.Ensure Bluetooth access is enabled as instructed, allowing the app to discover the device via BLE.

5. Connect to Wi-Fi: Connect to Wi-Fi: The app will automatically scan for nearby 2.4 GHz & 5 GHz Wi-Fi routers. Choose your desired Wi-Fi network from the list provided. Please double-check your Camera's capability in terms of 2.4 GHz & 5 GHz.

6. **Input Wi-Fi Credentials:** Enter the password for your selected Wi-Fi network. Click "Next" to initiate connection. Wait a few seconds for the device to connect to the internet. You'll hear a notification sound from the device indicating successful progress.

Wi-Fi network

Manually enter the Wi-Fi name and password.

Please pay attention to uppercase and lowercase letters when entering the password.

Next

7. **See Live View:** Upon completing the initial setup, access the main interface to view the live camera feed.

Additional Instructions

As shown in the figure, it respectively indicates the positions of the reset camera and the TF card slot.

1: When you need to reconnect the camera to the network, you only need to press and hold the reset button to reset the device.

2: When you want to save the videos on the local TF card, gently insert the TF card into the slot.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Manual de usuario de seguridad para el hogar

Introducción

Bienvenido a la aplicación de cámara InstaVision. Este manual lo guiará a través de las diversas funciones de la aplicación para asegurarse de que aproveche al máximo su cámara de seguridad.

Instalación y configuración

- 1. Descarga e instalación:** Descarga e instala la aplicación InstaVision escaneando el código QR para la Apple Store o la Google Play Store.

iPhone

Android

2. Registro de cuenta: Abre la aplicación y registra una nueva cuenta o inicia sesión en una cuenta existente.

3. **Agregar cámara:** Dirígete a la página principal dentro de la aplicación. Busca y selecciona "Agregar cámara" y luego sigue las instrucciones de preparación para encender tu cámara correctamente.

4. Acceso a Bluetooth: Sigue las instrucciones en pantalla para habilitar el acceso a Bluetooth, que es necesario para la detección del dispositivo. No omitas este paso. Asegúrate de que el acceso a Bluetooth esté habilitado como se indica, permitiendo que la aplicación descubra el dispositivo a través de BLE.

5. Conectar a Wi-Fi: Conectar a Wi-Fi: La aplicación escaneará automáticamente los enrutadores Wi-Fi cercanos de 2.4 GHz y 5 GHz. Elige la red Wi-Fi deseada de la lista proporcionada. Por favor, verifica nuevamente la capacidad de tu cámara en términos de 2.4 GHz y 5 GHz.

6. Ingresar credenciales de Wi-Fi: Introduce la contraseña de la red Wi-Fi seleccionada. Haz clic en "Siguiente" para iniciar la conexión. Espera unos segundos para que el dispositivo se conecte a internet. Escucharás un sonido de notificación desde el dispositivo que indica un progreso exitoso.

<

Red Wi-Fi

Ingrese manualmente el nombre y la contraseña de Wi-Fi.
