此电子产品在正常使用时的操作条件下使用本产品, 含有剧毒有毒有害物质, 如不当使用或丢弃, 从而对环境造成污染或对人体产生, 财产造成严重损害的潜在风险。

10 本产品仅适用于 2000V 以下。

10 本产品只适用于非特殊环境使用, 此为 A 级产品, 在正常使用中, 该产品可能会造成火灾或爆炸。在这种情况下, 可能需用户对于火灾采取切近的行动。

锂电池含有有毒有害物质如锂等物质, 在正常使用中: 锂电池产品含有微量有害物质, 但经国家环保部门认证可以回收。因此, 回收锂电池产品之后应送入回收系统, 回收系统应妥善处理。

《使用锂电池产品的安全指南》, 请仔细阅读

为了您的安全, 请仔细阅读本安全指南。本产品在使用过程中, 请遵守国家有关锂电池产品的安全使用及相关法律法规。其目的旨在将含有锂电池的产品与周围的环境隔离, 本产品的安全使用及相关法律法规, 必须严格遵守。

中国环保电子产品目录使用指南

a. 产品在不在外输入电源情况下使用, 请按照国家环保目录的要求。
b. 本产品与锂电池可以共同使用, 但锂电池必须符合国家环保目录的要求。

China RoHS 合格评定制度标识

5. GB 4943-1992 警告需求

对于上述设备, 必需用有保护标记的电源插头和电源线连接。
在额定功率时, 请确保电源插头的额定功率为 250V/2.0A/240V 最大 2.0A 的规格。

注意

仅适用于锂电池的产品

锂电池含有有毒有害物质, 可能造成安全的环境。
锂电池必须放入 A 级垃圾箱中, 或由专门机构进行机械切割或切割处理并处理导致爆炸。
锂电池必须放置在低温或高温中, 可能降低锂电池的寿命或可能导致液体气体, 电击或火灾危险, 可能损坏锂电池, 可能损坏锂电池, 可能损坏锂电池。
如果锂电池使用不当, 锂电池损坏将有永久或永久性损坏。

仅适用于锂电池的产品

锂电池含有有毒有害物质, 可能造成安全的环境。
本产品本身是一组锂电池的装置, 锂电池使用锂电池。如果锂电池使用, 2-2 小时, 锂电池使用锂电池, 锂电池使用锂电池。
以上重要事项, 锂电池使用锂电池, 锂电池使用锂电池。
如果锂电池使用不当, 锂电池损坏将有永久或永久性损坏。
如果锂电池使用不当, 锂电池损坏将有永久或永久性损坏。

Precautions

- Avoid use of the device near water sources or in damp areas such as bathrooms, kitchens, basements, or pools.
- The device is placed in a sealed plastic bag with moisture; dropping it may cause personnel injury or damage to the device.
- Do not touch or flick the device with a cool, dry and well-ventilated area, away from radiation sources and heat sources.
- Do not touch or flick the device in the case of the case. Do not place it on beds, sofas, blankets, or similar surface.
- The voltage range for operating the device is indicated on the rear name label. If unsure about the supplied voltage, consult the dealer or local power company.
- The device is not in use for a long period of time, disconnect the power, prevent damage from lightning strikes during thunderstorms and abnormal power fluctuations in a relative power grid.
- Do not use the device in the following cases:
 - In the presence of fire or electric shocks.
 - In the presence of lightning or other electric objects into the device, as it may cause fire or electric shocks.
 - Do not disassemble or repair the product yourself to avoid the risk of electric shock. If you are not a professional technician, contact the dealer or local power company.
 - Avoid excessive pulling or twisting of the power cord.
 - Do not use the device in the presence of a fire, or avoid contact with a specialized component purchased from its manufacturer or repair department.
 - To minimize interference with wireless radio and other electronic devices, users should meet standard IEEE 802.11b/g/n and IEEE 802.15.4 wireless system components.
 - Product storage temperature: -10°C to 45°C.
 - The device must meet standard IEEE 802.11b/g/n and IEEE 802.15.4 wireless system components may compromise safety signals such as radios such as explosions or fire, or not respond the battery to extremely high temperatures, such as in a microwave oven, or ovens, as it may cause explosions or leakage of flammable liquids or gases.
 - Do not disassemble, chop, squeeze, or cut the battery, as it may cause explosions.
 - Do not expose the battery to extremely low temperatures, as it may cause the battery to explode or leak flammable liquids or gases.

81

- If the battery becomes severely swollen, discontinue use immediately.
- Do not swallow the battery, as it may pose a risk of aspiration or chemical burns.
- If you suspect the battery has been swallowed or placed in any part of the body, seek medical attention immediately.
- Do not dispose of batteries in household waste; comply with national regulations for the safe disposal of used batteries.
- This product contains button batteries. Ingesting button batteries can cause severe internal burns within 2 hours and may result in death.

Plastic Packaging Bag Safety Warning:
Keep plastic packaging bags out of reach of infants and children.

Product introduction
• Indicator lights and part layout view by notebook model.

- **Camera**
Take photos or video exchanges.
- **Camera indicator light**
When the camera is turned on, the indicator light is solid white.
- **Microphone**
Use the microphone for video conferencing, voice calls, or recording.
- **Display**
The screen is displayed.
- **Indicator lights**
 - ☐ Power on indicator light
 - ☐ Clock lock
 - ☐ Num lock
 (Some models are equipped with indicator lights on the left, please refer to the actual situation.)
- **Fingerprint power key**
After entering your fingerprint, you can power on and unlock with one click instead of entering a password, which is fast and safe.
- **Keyboard**
Keyboard layout and content may vary by country and region, please refer to the actual situation.
- **Touchpad**
Similar to the function of a mouse, it is more convenient to control the computer.
- **Headphone jack**
Connect headphones.
- **USB-A port**
Connect external devices such as mobile phones and USB flash drives to transfer data.
- **30 card slot**
Insert and write SD card.
- **DC charging port**
DC power adapter for charging.
- **Charging indicator light**
 - The red light lights up when charging
 - The green light turns on when fully charged
- **USB-B port**
 - Connect the power adapter to charge the computer.
 - Connect external devices such as mobile phones and USB flash drives to transfer data.
 - Connect to a monitor, support projection, and monitor expansion.
- **HDMI port**
High-resolution multimedia interface to connect display devices.
- **USB-C port**
 - Connect the power adapter to charge the computer.
 - Connect external devices such as mobile phones and USB flash drives to transfer data.
 - Connect to a monitor, support projection, and monitor expansion. (Only some models are configured with this interface, please refer to the actual situation.)
- **Speakers**
Speaker sound mode.

The environmental protection use period refers to the period during which hazardous substances or elements contained in micro-components (excluding batteries) and their accessory components will not leak under normal use conditions, and the use of the product or products of electronic information equipment will not cause serious damage to the environment or cause serious damage to the personal or property.

Under the conditions described in the manual, this electronic information product contains toxic and hazardous substances or elements that will not leak and cause environmental pollution to human health or personal or property for a period of 10 years.

 This product is only suitable for use below 2000mm.

 This product is only suitable for use in non-topological regions and is classified as Grade A. In handling regions, this product may cause radio interference. In some cases, users may need to take measures to reduce the interference.

The management measures for the Restriction of Hazardous Substances in the product are described in the Restriction of Hazardous Substances (RoHS) Declaration. The electronic information product contains hazardous substances, which can be safely disposed of in accordance with the relevant national and international environmental protection use period expires, it should be recycled through the recycling system.

Indicative Notes on the "Regulations on the Management of Recycling and Disposal of Electronic Information Products"

In order to better care for and protect the earth, when users do not need this product or product components, they should follow the national laws, regulations and regulations on the recycling and disposal of waste electrical and electronic products, and hand them over to the designated recycling and disposal units. Improper use or disposal can have an impact on the environment and human health.

Environmental Labeling Product Warranty Instructions:

The statement that the product is environmentally friendly can only when not connected to any external power source.

For the statement that the current part is within 3 years after the date of product is sold (only applicable to models certified by the Chinese environmental labeling).

China RoHS Conformity Assessment System Identification

GB 4341-12022 Warning Requirements

For Class II products, the following requirements shall be complied with regarding protection grounding:

When installing in buildings, ensure that the distribution system can provide a circuit breaker with a rated voltage of 120/240V and a maximum of 20A.

Attention:

Only applicable to products with batteries.

When the battery is used, it may cause a fire or explosion result in loss of safety protection. Placing battery packs in fire or ovens, or mechanically squeezing or cutting the battery packs may cause a fire or explosion.

Placing battery packs in extremely high-temperature environments may cause a fire or explosion. Do not place battery packs in the vicinity of open flames.

Battery packs subjected to extremely low bar pressure may explode or leak electrolyte liquids and gases.

There is a risk of fire or explosion if the wrong type of battery pack is used for replacement.

Only applicable to products with button batteries.

Do not swallow button batteries.

Do not use button batteries in children's toys. Do not use button batteries in children's button batteries. If a button battery is swallowed, it can cause severe internal damage to the body and may lead to death within 24 hours and may require surgery.

Keep new and used batteries away from children.

The statement that the product is environmentally friendly can only when the product and keep it away from children.

If you think a battery may have been swallowed or lodged in any part of the body, seek medical attention immediately.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference..

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This Notebook computer meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: N16U2-AN (FCC ID: 2BGOP-N16U2-AN) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the when properly worn on the body is 0.697W/kg. This device was tested for typical body-worn operations with the back of the Notebook computer kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the Notebook computer. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
