Warning:
Please pay attention to the following precautions to avoid death or serious injury caused by fire, electric shock, heat, fire, etc. Do not directly touch the charging battery with your hands to prevent liquid leakage. If the leaked liquid accidentally enters the eyes, to avoid the possibility of blindness, please do not rub your eyes immediately rinse thoroughly with clean water and seek medical treatment promptly. If the leaked liquid accidentally touches the body or clothing, to avoid possible burns or other injuries, please use immediately Wash with water or other ingredients. If there is inflammation or other damage to the skin, please seek medical treatment promptly. Please use the attached USB Type-C accessory for charging. Damage, battery leakage, overheating, and other situations may cause fire and other injuries, resulting in surrounding pollution and damage injury. Do not disassemble this machine on your own to avoid malfunctions or electric shock. If you need to replace the rechargeable battery, inspect or repair it, please contact the seller in a timely manner. Post service center or specialized store at the time of purchase. Please do not expose this device to high temperatures or heating equipment, such as near flames, direct sunlight, or high temperatures. Use, store, and place in high-temperature areas such as the interior of the car.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
