

# A03 User Manual

## Operating Instructions

## Remote Control

1. Press and hold the remote control button to turn on the power. The LED indicator will blink.
2. Search for and pair with the Bluetooth name "A03" on your phone. The LED indicator will stop blinking after a successful connection; the LED will blink each time the remote control is used to take a photo.
3. If not paired, the remote control will automatically power off after 10 minutes.
4. The remote control will automatically enter sleep mode after 10 minutes of inactivity. If not awakened, it will automatically power off after another 10 minutes.
5. Press and hold the remote control button to turn off the power. The LED indicator will blink 3 times and then turn off.

## Fill Light Functions

Press and hold: Turn On/Off

Click: Adjust lighting mode and brightness / Turn off

Double-click: Activate strobe mode

Lighting Modes: White Light/Warm Light/Mixed Light (Soft light, Medium light, Strong light)

Battery Capacity: 400mAh

Operating Voltage / Output Voltage: 3.7V

Charging Voltage: 5V Charging Current: 450mA

TYPE-C Charging Port

The red light remains steadily on during charging. The red light turns off when charging is complete.

## Detachable Fill Light

Remove the back light from the selfie stick, rotate it 180° horizontally and 180° vertically, move it to the front of the selfie stick, align it with the engraved grooves on the selfie stick (as shown in the right figure), then push down and secure it in place.

## Specifications

A03 Remote Control Parameters:

Battery Voltage: 3.7V

Battery Capacity: 60mAh

Charging Voltage: 5V

Charging Current: 50mA

Low Power Reminder & Shutdown: 3.3V

A03 Product Basic Parameters:

Extended Length: approx. 770mm

Product Weight: approx. 176g

Standing Height: approx. 730mm

Folded Height: 180.8mm

Folded Width: 32mm (front) 58.3mm (side)

## FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Thank you for your support.
