FCC Confidential Authorization

Date: 2026-03-20

FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Confidentiality Request regarding application for certification of FCC ID:
2BGXN-NRW01, 2BGXN-MTB02, 2BGXN-NRW03, 2BGXN-MTB04

In accordance with Sections 0.457 and 0.459 of the Commission's Rules, Neuracle Technology (Changzhou) Co., Ltd. hereby requests long-term confidential treatment of information accompanying this request as outlined below:

- Internal photos
- User manual

In support of this request, Neuracle submits the following:

(1) identification of any measures taken by the submitting party to keep the information private :

The internal photos and user manual of the device contain trade secrets related to its design and manufacturing techniques, which are regarded as highly confidential business information. The information for which confidential treatment is sought is kept confidential by Neuracle and not made available to third parties except pursuant to arrangements designed to prevent public disclosure. In addition, the device is sealed so disassembly would destroy the product. Finally, the device is only serviceable by Neuracle and not by the consumer.

(2) Special justification for internal photos and user manual:

For internal photos:

The device is sealed so disassembly would destroy the product. Critical components are enclosed in sealed enclosures to prevent reverse engineering of proprietary circuit design and technical achievements.

For user manual:

The user manuals are strictly controlled for internal and official review use only, with restricted access and no public distribution.

We are applying to classify the internal photos and user manual as long-term confidential information. And we know that the internal photos and the user manual were public and that the FCC has no obligation to remove the records from third party WEB sites that obtained these documents during the public period.

Sincerely,

Signature
