

Date (23/04/2026)

Equipment Authorization Branch
Federal Communications Commission
Columbia, MD 21046

Regarding: Application for certification for FCC ID: **2BH4M37602**

To whom it may concern:

This application represents a change in FCC ID in which the original grantee placed the FCC ID within the instruction manual. Enterra Medical, Inc. will maintain this same labelling approach by providing the FCC ID number associated with the transmitter and the information required by Section 2 of the FCC Rules within the instruction manual for the transmitter, in lieu of being placed directly on the transmitter. The device being implanted in the human body makes marking the device with supplemental information a manufacturing hardship and additional safety risks.

If you have any questions regarding this application, please feel call me at 763-227-7839 or contact via email at awillson@enterramedical.com

Sincerely,

A handwritten signature in black ink that reads "Adam Willson". The signature is written in a cursive, flowing style.

Name: Adam Willson

Title: Design Assurance Engineer
